

6. Who is the new Chief Executive Officer (CEO) of Twitter?

- (a) Elon Musk
- (b) Linda Yaccarino
- (c) Parag Agrawal
- (d) More than one of the above
- (e) None of the above

B.P.S.C. PRT 2023 Shift I

Ans. (b)

In June 2023, Linda Yaccarino succeeded Elon Musk as the chief executive officer of X Corp (formerly twitter).

Space

1. The first man who placed his foot on the moon is :

- (a) Leonov
- (b) Neil Armstrong
- (c) Michael Collins
- (d) James Van Allen
- (e) None of the above / More than one of the above

66th B.P.S.C. (Pre) 2020

Ans. (b)

Apollo-11 was the spaceflight that landed the lunar module 'Eagle' with two people on the moon on 20th July 1969. The NASA astronaut and mission commander Neil Armstrong was the first man who placed his foot on the moon and his fellow astronaut pilot Buzz Aldrin followed him at the moon's surface after a gap of about 20 minutes (Source : NASA).

2. When was 'INSAT-2A' launched?

- (a) February 4th, 1975
- (b) May 18th, 1974
- (c) July 10th, 1992
- (d) April 19th, 1975

44th B.P.S.C. (Pre) 2000

Ans. (c)

INSAT-2A was India's first indigenously built satellite. This satellite was launched on July 10th, 1992 from French Guiana.

3. When was the first Indian satellite Aryabhata launched?

- (a) 10th July, 1992
- (b) 19th April, 1975
- (c) 1st November, 1966
- (d) 2nd December, 1975

44th B.P.S.C. (Pre) 2000-01

Ans.(b)

The first Indian satellite Aryabhata was launched on 19 April 1975.

4. In July 2019, the spacecraft Chandrayaan-2 was launched from which Indian State?

- (a) Gujarat
- (b) Andhra Pradesh

(c) Karnataka

(d) Maharashtra

(e) None of the above/More than one of the above

65th B.P.S.C. (Pre) 2019

Ans. (b)

Chandrayaan-2 is the second lunar exploration mission developed by the Indian Space Research Organisation (ISRO). This spacecraft was launched on its mission to the moon from the Satish Dhawan Space Centre, Sriharikota (Andhra Pradesh) on 22 July, 2019 by GSLV-MK III- M1. A successful soft landing would have made India fourth country after Russia, USA and China to do so.

5. What message was sent by Chandrayaan-2 lunar orbiter to Chandrayaan-3's lander module when it established contact with it in August 2023?

- (a) "Welcome home"
- (b) "Chalo chand ke paar chalein"
- (c) "Welcome, buddy"
- (d) More than one of the above
- (e) None of the above

B.P.S.C. School Teacher (Class 11-12) 15-12-2023

Ans. (c)

Chandrayaan-2 lunar orbiter send a message "Welcome buddy" to Chandrayaan-3's lander module when it established contact with it in August 2023.

6. Chandrayan-3 had landed on which part of the Moon?

- (a) North Pole
- (b) South Pole
- (c) Central Pole
- (d) More than one of the above
- (e) None of the above

B.P.S.C. School Teacher (Class 9-10) 07-12-2023

Ans. (b)

Chandrayan-3 is a follow-on mission to Chandrayan-2 to demonstrate end-to-end capability in safe landing and moving on the lunar-surface. It had successfully soft landed near the South Pole of the Moon on August 23, 2023.

7. The Sun observation point of Aditya-L1 satellite is

- (a) L1
- (b) L2
- (c) L3
- (d) More than one of the above
- (e) None of the above

B.P.S.C. School Teacher (Class 9-10) 08-12-2023

Ans. (a)

Aditya-L1 is a satellite dedicated to the comprehensive study of the sun. Aditya in Sanskrit means the sun. L1 refers to Lagrange Point 1 of the Sun-earth system. L1 is a location in space where the gravitational forces of two celestial bodies, such as the sun and earth are in equilibrium. This allows an object placed there to remain relatively stable with respect to both celestial bodies. Hence, the sun observation point of Aditya-L1 satellite is L1.

8. Who was the Project Director for ISRO's Aditya-L1 Mission, launched on 2nd September, 2023 to study the Sun?

- (a) Sankarasubramanian K.
- (b) P. Veeramuthuvel
- (c) Nigar Shaji
- (d) More than one of the above
- (e) None of the above

B.P.S.C. School Teacher (Class 6-8) 09-12-2023

Ans. (c)

Nigar Shaji is a scientist at the UR Rao Satellite Centre, part of ISRO. She is the project director for India's first space-based solar observatory. Aditya L1 is the first space based Indian mission to study the sun. The space craft will be placed in a halo orbit around the Lagrange Point 1 (L1) of the sun-earth system.

9. Recently, ISRO and CNES signed an agreement to set up a joint maritime surveillance system. CNES is a space agency of which country?

- (a) Russia
- (b) Germany
- (c) France
- (d) Canada
- (e) None of the above/More than one of the above

65th B.P.S.C. (Pre) 2019

Ans. (c)

CNES (National Centre for Space Studies; French : Centre National d'etudes spatiales) is the government space agency of France. ISRO and CNES signed an agreement in March, 2019 to set up a joint maritime surveillance system.

10. ISRO has successfully launched GSAT-6A satellite from which rocket vehicle?

- (a) GSLV-F07
- (b) GSLV-F09
- (c) GSLV-F05
- (d) GSLV-F08
- (e) None of the above/More than one of the above

63rd B.P.S.C. (Pre) 2017

Ans. (d)

GSAT-6A is a high power S-band communication satellite of ISRO, which was launched by GSLV-F08 on March 29, 2018 from SDSC SHAR, Sriharikota. Its mission life is 10 years.

11. Geostationary satellite rotates

- (a) at any height above the Poles
- (b) at a fixed height
- (c) at the height depending on mass
- (d) More than one of the above
- (e) None of the above

B.P.S.C. PRT 2023 Shift II

Ans. (b)

The satellite is anything that orbits a planet or a star. Satellites orbit earth at different heights, different speeds and along different paths. The two most common types of orbits are "geostationary" and "polar". The geostationary satellite travels from west to east over the equator. It moves in the same direction and at the same rate Earth is spinning. From earth, a geostationary satellite looks like it is standing still since it is always above the same location.

12. The ISRO has launched its latest earth observation satellite named PSLV-C49 intended for application in which field?

- (a) Agriculture, forestry and disaster management support area
- (b) Agriculture, forestry and drought-prone area management
- (c) Engineering and technology
- (d) Engineering, science and technology
- (e) None of the above / More than one of the above

B.P.S.C. Project Manager Prelims 2021

Ans. (a)

India's Polar Satellite Launch Vehicle, in its fifty first flight (PSLV-C49), successfully launched EOS-01 along with nine international customer satellites from Satish Dhawan Space Centre (SDSC) SHAR, Sriharikota on November 07, 2020. EOS-01 is an earth observation satellite, intended for applications in agriculture, forestry and disaster management support.

13. How many astronauts are to be sent for how many days in the manned mission of H1 Gaganyaan?

- (a) 2 astronauts for 2 days
- (b) 3 astronauts for 5 days
- (c) 3 astronauts for 7 days
- (d) More than one of the above
- (e) None of the above

B.P.S.C. Headmaster 07-12-2023

Ans. (e)

Gaganyaan Project envisages demonstration of human spaceflight capability by launching crew of 3 members to an orbit of 400 km for a 3 days mission and bring them back safely to earth, by landing in Indian sea waters.
