

Mahamaya Prasad Sinha was the first non-Congress Chief Minister of Bihar. He was the fifth Chief Minister of Bihar after Independence from 1967 to 1968.

36. When was the Province of Bihar added to the Province of Bengal?

- (a) 1731 AD (b) 1732 AD
(c) 1733 AD (d) 1734 AD
(e) None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (c)

In 1733 AD, the merger of the Bihar province into Bengal province was carried out then Nawab of Bengal, Shuja-ud-Daula, divided the Bengal province into four part : (1) Central Division, which included present-day West Bengal, North Bengal and Central Bengal, (2) Dhaka Division, which included Eastern and Southern Bengal, (3) Bihar and (4) Odisha.

Geographical Scenario

1. In which type of climatic region do Uttar Pradesh and Bihar fall as per Koppen's classification scheme?

- (a) Dfc (b) Cwg
(c) Aw (d) More than one of the above
(e) None of the above

68th B.P.S.C. (Pre) 2022

Ans. (b)

According to Koppen climatic classification system, Uttar Pradesh and Bihar are classified as 'Cwg' type of climate region. This type of climate is Monsoon with dry winter. Aw climate is Tropical Savannah and cover most of the peninsular plateaus, south of the Tropic of Cancer and covers South India. DFC climate are cold humid winter with short summer and covers are mostly Arunachal Pradesh.

2. Which of the following States of India borders with the maximum number of districts in Bihar?

- (a) West Bengal
(b) Uttar Pradesh
(c) Jharkhand
(d) More than one of the above
(e) None of the above

68th B.P.S.C. (Pre) 2022

Ans. (d)

Uttar Pradesh and Jharkhand state have common border with 8 district of Bihar.

Border with UP

- (1) West Champaran
(2) Gopalganj
(3) Siwan
(4) Saran
(5) Buxer
(6) Bhojpur
(7) Rohtas
(8) Kaimur

Border with Jharkhand

- (1) Katihar
(2) Bhagalpur
(3) Banka
(4) Jamui
(5) Nawada
(6) Gaya
(7) Aurangabad
(8) Rohtas

3. Brahmayoni Hill is located in which district of Bihar?

- (a) Gaya (b) Rohtas
(c) Nalanda (d) Nawada
(e) None of the above/More than one of the above

67th B.P.S.C. (Pre) 2021

Ans. (a)

Brahmayoni Hill is a sacred hill located in the Gaya district of Bihar. It is mentioned in Mahabharata and Buddhist records. Gaya district is a city situated on the banks of Falgu river.

4. Which city of Bihar is surrounded by five hills?

- (a) Gaya (b) Patna
(c) Bhagalpur (d) Bodh Gaya
(e) None of the above/More than one of the above

66th B.P.S.C. (Re. Exam) 2020

Ans. (e)

Rajgir has got the name from Raj Griha meaning the adobe of the king. The city was the capital of the mighty Magadha Empire during the period of Lord Buddha's lifetime when Patliputra was not formed. Rajgir has its own scenic beauty surrounded by five hills named Ratnagiri, Vipalachal, Vaibhagiri, Songiri and Udaygiri.

5. Bihar state is situated between the following longitudes

- (a) About 84° East to 88° East
(b) About 80° East to 84° East
(c) About 80° East to 88° East
(d) None of these

38th B.P.S.C. (Pre) 1992

Ans. (d)

Bihar is located between 83° 19'50" E and 88° 17' 40" E longitude. Thus, options (d) is correct.

6. Total geographical area of Bihar is—

- (a) Approximately 170 sq. km
(b) Approximately 172 sq. km

- (c) Approximately 174 sq. km
(d) Approximately 178 sq. km

40th B.P.S.C. (Pre) 1995

Ans. (c)

The total area of Bihar, when this question was asked, was 173877 sq. km. After the formation of Jharkhand on 15 November, 2000 the total area of Bihar is 94163 sq. km. which is 2.86 percent of the total area of India. It is the 12th largest state of India by area.

7. Standard time of Patna is –

- (a) After Indian Standard Time.
(b) Before Indian Standard Time.
(c) Same as Indian Standard Time.
(d) Not related with Indian Standard Time.

41st B.P.S.C. (Pre) 1996

Ans. (c)

The standard time of Patna is the same as that of the rest of India. Indian Standard Time is determined by 82°30' E longitude.

8. What is the height of Bihar's Rohtas district from sea level?

- (a) 107.78metres (b) 102.5 metres
(c) 75.4 metres (d) 53 metres

B.P.S.C. Assistant Mains (GK) Paper II 2023

Ans. (a)

As per the data mentioned on official website of Rohtas district of Bihar. Its height from the sea level is approximate 107.78 meters. This district shares its boundary with Bhojpur and Buxar in north, Palamu and Garhwa in South, Aurangabad and part of Gaya in east and with kaimur district in west.

9. The road length per lakh of population in Bihar is

- (a) lowest (b) second lowest
(c) highest (d) second highest
(e) None of the above/More than one of the above

63rd B.P.S.C. (Pre) 2017

Ans. (b)

According to Economic Survey of Bihar 2019-20 Bihar has the lowest road density with 181 km. per lakh population, compared to 386 km. at the all India level. B.P.S.C. marked option (e) as correct answer in its final answer key. The above data is provided by Transport Research Wing, Ministry of Road Transport and Highway. The question asked in 2017 and then data for the year 2010 is available in public domain if we answer according to that data then Bihar was the second lowest state in terms of the road length per lakh km.

10. What was the growth rate of Bihar economy at constant prices in the year 2018-19?

- (a) 13.53% (b) 11.53%
(c) 12.53% (d) 10.53%
(e) None of the above/More than one of the above

66th B.P.S.C. (Re- Exam) 2020

Ans. (d)

When this question was asked the growth rate of Bihar Economy at Constant Prices in the year 2018-19 was 10.53 percent. According to Economic Survey of Bihar 2023-24 the growth rate of Bihar's economy in 2022-23 was 10.6 percent at constant prices (2011-12).

11. Who is the Panchayati Raj Minister in Bihar?

- (a) Arvind Kumar Chaudhary
(b) Samrat Chaudhary
(c) Ranjit Kumar Singh
(d) Vijay Kumar Chaudhary
(e) None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (b)

Samrat Chaudhary is the Panchayati Raj Minister in Bihar. Significantly in pursuance of the provisions made in the 73rd Constitution (Amendment) Act, 1992, The Bihar Panchayati Raj Act, 2006 has been enacted, which provides for establishment of Gram Panchayat at village levels, Panchayat Samiti at Block level and Zila Parishad at District level.

12. In which year was 50% reservation to women in Panchayat bodies in Bihar provided?

- (a) 2005 (b) 2006
(c) 2009 (d) 2014
(e) None of the above / More than one of the above

67th B.P.S.C. (Pre) 2021

Ans. (b)

50% reservation for women in panchayat bodies in Bihar was provided under the Bihar Panchayati Raj Act, 2006. This Act is applicable from April, 2006. The three-tier Panchayati Raj system in Bihar consists of the Gram Panchayat at the lowest level, the Panchayat Samiti at the block level and the Zila Parishads at the district level.

13. In which district of Bihar, Someshwar Hill is situated?

- (a) Western Champaran (b) Gopalganj
(c) Eastern Champaran (d) Siwan
(e) None of the above / More than one of the above

B.P.S.C. Auditor 2021

Ans. (a)

Someshwar Hills is situated in the West Champaran District of Bihar.

14. Consider the following statements regarding the vivid geographical aspects of Bihar –

I. Agriculture contributes nearly 67 per cent to Bihar's domestic product.

II. Silk industry in Bihar provides self-employment to over 1,50,000 people

III. About 47 lakh acres of land in Bihar get flooded every year, while 10 lakh acres remain permanently waterlogged.

IV. 85 to 90 percent of Bihar's rural households own less than 5 acres of land each.

Which of these statements are correct?

- (a) II and IV (b) I and II
(c) II and III (d) III and IV

47th B.P.S.C. (Pre) 2005

Ans. (c)

Statement 1 and 4 are false because when this question was asked, agriculture contributed 42 percent to the total GDP of Bihar. Presently the number of small tillage is 86.45 lakh which is 82.9 percent of the total tillage.

15. The percentage of land area of old Bihar that forms the State of Jharkhand is –

- (a) 38.40 % (b) 45.85 %
(c) 42.35 % (d) 51.72 %

44th B.P.S.C. (Pre) 2000

Ans. (b)

The total area of Bihar before the formation of Jharkhand was 173877 sq. km. Out of this area 79714 sq. km. area was proceeded for the creation of the new state of Jharkhand on 15 November, 2000. Thus, Jharkhand comprises 45.84 percent of the total area of undivided Bihar. The total area of Bihar is 94163 sq. km presently.

16. Which of the following physiographic divisions of Bihar does not share its boundary with Jharkhand?

- (a) Ganga-Son Divide (b) Anga Plain
(c) Magadha Plain (d) Mithila Plain
(e) None of the above/More than one of the above

B.P.S.C. CDPO 2018

Ans. (d)

Mithila plain physiographic division of Bihar does not share its boundary with Jharkhand. Mithila is a distinct geographical region with natural boundaries like rivers and hills. It is largely a flat and fertile alluvial plain crossed by numerous river which originate from the Himalayas.

17. The average size of landholdings in Bihar in comparison with other states is –

- (a) Lowest (b) Second lowest
(c) Highest (d) Second highest
(e) None of the above/More than one of the above

63rd B.P.S.C. (Pre) 2017

Ans. (b)

According to Agriculture Census 2015-16 the average size of landholdings in Bihar is in comparison with other state is second lowest.

18. Which of the following districts of Bihar does not share border with Nepal?

- (a) Madhubani (b) Kishanganj
(c) Sitamarhi (d) Purnia
(e) None of the above/More than one of the above

63rd B.P.S.C. (Pre) 2017

Ans. (d)

West Champaran, East Champaran, Sitamarhi, Madhubani, Supaul, Araria and Kishanganj are the following districts of Bihar that share border with Nepal.

19. Expansion of Tarai Region in Bihar is –

- (a) Parallel to the north bank of Chotanagpur plateau
(b) Parallel to the India-Nepal boundary
(c) Parallel to the east bank of Rohtas plateau
(d) Parallel to the west boundary of Rajmahal mountain series

41st B.P.S.C. (Pre) 1996

Ans. (b)

The Terai region of Bihar is spread parallel to India-Nepal border. In West Champaran, East Champaran, Sitamarhi, Supaul, Madhubani, Kishanganj and Araria district adjoining Nepal the Terai region is spread over a narrow strip. Terai is a lowland region in Northern and Southern Nepal and the Indo-gangetic Plain.

20. The district having maximum average annual rainfall in Bihar is

- (a) Gaya (b) Aurangabad
(c) Patna (d) Kishanganj
(e) None of the above / More than one of the above

B.P.S.C. Auditor 2021

Ans. (d)

The highest average annual Rainfall in plains occurs in Kishanganj district of Bihar.

21. The land of Bihar is drained by which of the following river systems?

- (a) Mahanadi (b) Ganga
(c) Yamuna (d) Godavari
(e) None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (b)

The Ganga flowing from east to west in Bihar, is the main drainage channel with seven major rivers/basins namely Ghaghra, Gandak, Burhi-Gandak, Kamla Balan, Bagmati, Kosi and Mahananda on its north and six namely Karmnasa, Sone, Punpun, Kiul-Harohar, Badua and Chandan on its south.

22. The district of Bihar which has a longer length of Ganga River is

- (a) Bhagalpur (b) Katihar
- (c) Patna (d) Begusarai
- (e) None of the above / More than one of the above

65th B.P.C.S. (Pre) 2019

Ans. (c)

Patna district of Bihar State has a longer length (around 99 km) of Ganga River.

23. The parts of eastern Uttar Pradesh and Bihar are included in which of the following plains?

- (a) Upper Ganga Plain (b) Middle Ganga Plain
- (c) Lower Ganga Plain (d) Brahmaputra Plain
- (e) None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (b)

To the east of the Upper Ganga plain is Middle Ganga plain occupying eastern part of Uttar Pradesh and Bihar. It measures about 600 km in east-west and nearly 330 km in north-south direction accounting for a total area of about 1.44 lakh sq km. Bihar is situated in the central portion of Indo-Gangetic plain (Middle-Ganga). The portion lying on the northern side of left bank of Ganga is known as north Bihar and that lying on the southern side as south Bihar. As per "Second Bihar State Irrigation Commission 1994" report, the rivers of Bihar have been divided into 14 basins namely, 1. Ghaghra, 2. Gandak, 3. Burhi Gandak, 4. Bagmati-Adhwara, 5. Kamla-Balan, 6. Kosi, 7. Mahananda, 8. Main Ganga stem which includes the drainage area of Kao river, Dharmawati river, Ganga, Mahi river, and Baya river, 9. Karmnasa, 10. Sone, 11. Punpun, 12. Kiul-Harohar, 13. Badua which includes the drainage area of Belharha river also, 14. Chandan which includes the drainage area of Bilasi river and Chir river also.

24. Which one of the following parts of Bihar is geologically older in age relatively?

- (a) Rohtas Plateau (b) North-Western Hills
- (c) Kharagpur Hills (d) North Ganga Plains
- (e) None of the above/More than one of the above

B.P.S.C. (Pre) 2018

Ans. (c)

Kharagpur Hills are Part of Dharwar range where as Rohtas Plateau falls in the Vindhyan range. North western hills are of tertiary order and North Ganga plains are the youngest.

25. Piedmont Swamp Soil is found only in which one of the following districts of Bihar?

- (a) Madhubani
- (b) Bhagalpur
- (c) West Champaran
- (d) Sitamarhi
- (e) None of the above/More than one of the above

66th B.P.S.C. (Pre) 2020

Ans. (c)

Piedmont Swamp soil is found in northwestern part of West Champaran district of Bihar.

26. Which one of the following statements about irrigation in Bihar is not correct?

- (a) Of the total sown area in Bihar nearly 30 percent is irrigated.
- (b) Of the total irrigated area in Bihar nearly 30 percent is irrigated by canals and 39 per cent by tubewells.
- (c) The maximum area irrigated by canals is found in Bhojpur, Aurangabad, West Champaran, Rohtas and Munger districts.
- (d) The maximum area irrigated by tube wells is found in Samastipur, Sitamarhi, Begusarai, Sitamarhi, Begusarai, Muzaffarpur, Gopalganj and Khagaria districts.

47th B.P.S.C. (Pre) 2005

Ans. (b)

When this question was asked, 27.87 percent of the total irrigated area was irrigated through canals and 64.64 percent through bore wells and tube wells. The Source-wise Gross Irrigated Area in Bihar presented during 2021-22.

Source	Irrigated area (percentage)
(i) Canal	31.0
(ii) Ponds	2.2
(iii) Tubewells	63.1
(iv) Other Sources	3.7

27. Joint irrigation project of the States of Bihar and Uttar Pradesh is –

- (a) Damodar Valley Project
- (b) Kosi Project
- (c) Son Barrage Project
- (d) Gandak Project

48th to 52nd B.P.S.C. (Pre) 2008

Ans. (d)

Gandak project is a joint venture of the governments of Bihar and Uttar Pradesh. The project was about constructing a barrage across the Gandak river at Valmikinagar, Bihar. Two canals have been drawn from here –

- (i) Tirhut Canal (towards west) and
- (ii) Saran Canal (towards east)

The Tirhut Canal irrigates East and West Champaran, Vaishali, Samastipur, Gopalganj, Siwan, Soran and Muzaffarpur districts. The Saran Canal irrigates Saran districts of Bihar and Deoria and Gorakhpur districts of Uttar Pradesh. Gandak River originates at Middle Himalaya and forms border between Bihar and Uttar Pradesh. It merges into the Ganga near Sonpur.

28. After independence the irrigated area in Bihar enlarged approximately-

- (a) two times
- (b) four times
- (c) five times
- (d) ten times

42nd B.P.S.C. (Pre) 1997

Ans. (a)

After independence, the total irrigated area in Bihar has more than two times.

29. Finally, what is the irrigation capacity of Bihar?

- (a) 89.20 lakh hectares
- (b) 90.30 lakh hectares
- (c) 91.30 lakh hectares
- (d) 92.11 lakh hectares

40th B.P.S.C. (Pre) 1995

Ans. (a)

When this question was asked option (a) as the correct answer. According to the Bihar, Economic Survey 2023-24 the Gross Irrigated Area has increased from 54.14 Lakh hectares in 2017-18 to 55.98 Lakh hectares in 2021-22.

30. What percent of cultivable land in Bihar is irrigated?

- (a) More than 50%
- (b) 40% to 50%
- (c) 30% to 40%
- (d) Less than 30%

41st B.P.S.C. (Pre) 1996

Ans. (a)

Option (a) is the correct answer in this question period. According to Bihar Economic Survey 2023-24, the Gross cultivated area in Bihar is 72.65 Lakh hectares, due to which the gross irrigated area is 55.97 Lakh hectares in the year 2022-23.

31. The percentage of net cultivated area out of total area in Bihar is –

- (a) 60
- (b) 40
- (c) 80
- (d) 70

48th to 52nd B.P.S.C. (Pre) 2008

Ans. (a)

According to 2008-09 data, the total geographical area of Bihar is 9360 thousand hectare out of which the net sown area is 5665 thousand hectare. This means approximately, 60 percent (59.34%) land of the total area is under cultivation. According to Bihar Economic Survey 2023-24 (Data 2021-22), the Net Sown area is 50.70 Lakh hectare which is 54.2 percent of the total geographical area of Bihar.

32. What is the percentage of population in Bihar State employed in agriculture sector in 2017-18?

- (a) 65
- (b) 65
- (c) 68
- (d) 70
- (e) None of the above/More than one of the above

64th B.P.S.C. (Pre) 2018

Ans. (e)

47.8% population of Bihar is employed in agriculture sector (Agriculture, forestry and fishing) in year 2021-22, which is far more than the national average.

33. The new ministry proposed in the Bihar Budget for the year 2021-22 focuses on –

- (a) Child care
- (b) Women empowerment
- (c) Infrastructure Development
- (d) Skill and Entrepreneurship Development
- (e) None of the above/More than one of the above

67th B.P.S.C. (Pre) 2021

Ans. (*)

Presently in the state of Bihar, ITI are operated by the Labor Resources Department and the Polytechnic Institute are operated by the Department of Science and Technology, due to which it is not easy to establish coordination in both the organizations. Therefore, for establishing coordination and for skill and entrepreneurship development (Bihar, Budget, 2021-22), formation of a separate department, 'Skill Development and Entrepreneurship Department' was announced. Although the word 'Ministry' has been given in the question, according to which the answer to this question can be option (e), but if Ministry means the department, then the answer can be option (d).

34. Correctly match List-I (Agro-climatic zones) with List-II (Percentage of Bihar's Area) and select the correct answer using the codes given below the lists :

List-I (Agro-climate zones)	List-II (Percentage of Bihar's area)
A. North and North-Eastern Bihar Plains	1. 29.87%
B. South Bihar Plains	2. 23.71%
C. Chhota Nagpur Plateau	3. 26.14%
D. Chhota Nagpur Hills	4. 20.28%

Code :

	A	B	C	D
(a)	3	4	1	2
(b)	1	2	3	4
(c)	2	1	4	3
(d)	4	3	2	1

47th B.P.S.C. (Pre) 2005

Ans. (b)

The north and the north-eastern plain of Undivided Bihar is spread over 29.89 percent of the total geographical area. Southern Bihar plains is spread on 23.71 percent, Chhota Nagpur plateau on 26.14 percent and Chhota Nagpur hills area is extended on 20.28 percent of the total land of Bihar. Presently, Bihar is classified in three zones – Northwestern alluvial plain, northeastern alluvial plain and Southern Bihar alluvial plain.

35. Which agroclimate region of Bihar has highest number of districts?

- (a) North East
- (b) North West
- (c) South East
- (d) South West
- (e) None of the above/More than one of the above

67 B.P.S.C. (Pre) 2022

Ans. (b)

Bihar falls in the agro-climatic zone IV, which is called the "Middle Gangetic Plain". On the basis of soil characteristics, rainfall, temperature and topography, Bihar is divided into three sub-regions namely North-East, North-West Alluvial Plain and South Bihar Alluvial Plain. The South Bihar alluvial plain is further classified into South-East (A) and South-West (B). The North-West Zone comprises a total of 12 districts. While the North-East zone consists of 8 districts. Total 17 districts are included in the South Bihar alluvium Plain Zone, out of which 6 districts are included in the South-East Zone (A) and 11 districts in the South-West Zone (B). Thus it is clear that most of the districts are included in the North-West zone.

36. What is the rank of Bihar in terms of production of jute among the States of India?

- (a) First
- (b) Second
- (c) Third
- (d) Fourth
- (e) None of the above/More than one of the above

64th B.P.S.C. (Pre) 2018

Ans. (b)

According to office of the Jute Commissioner, Bihar ranks second among Indian states in terms of production of Jute while West Bengal is the largest producer of Jute in India in 2022. Jute cultivation is highly concentrated in three state West Bengal, Bihar and Assam— according for almost 98.27% of India production.

37. Someshwar range of Bihar is-

- (a) Older than Parasnath mountain series
- (b) Older than Rajmahal mountain series
- (c) Older than Kharagpur mountain series
- (d) Younger than of all of these

42nd B.P.S.C. (Pre) 1997

Ans. (d)

The Someshwar mountain range and the Shivalik mountain range of the Himalaya belong to Pleistocene age. Thus, these are newly formed ranges in comparison to the other three in the options above.

38. Kaimur Plateau is famous for –

- (a) Copper
- (b) Limestone
- (c) Lithium
- (d) Bauxite
- (e) None of the above/More than one of the above

63rd B.P.S.C. (Pre) 2017

Ans. (b)

Kaimur Plateau is famous for limestone. It is situated in Bihar. It extends into the eastern portion of Vindhya Range.

39. Which of the following landforms occupy the North-Western parts of Bihar state?

- (a) Someshwar Hilly Range
- (b) Kaimur Plateau
- (c) Nawada Hilly Region
- (d) Rajgir Hilly Region
- (e) None of the above/More than one of the above

60th to 62nd B.P.S.C. (Pre) 2016

Ans. (a)

The North-Western parts of Bihar state are occupied by Someshwar Hilly Range. Someshwar hills is part of the outer Himalayan ranges.

40. Forests of Chhotanagpur are –

- (i) Evergreen
- (ii) Deciduous
- (iii) Savana
- (iv) Thorny

Select your answer out of the following codes –

- (a) i and ii both are true
- (b) only ii is true
- (c) ii and iii both are true
- (d) only iv is true

41st B.P.S.C. (Pre) 1996

Ans. (c)

Main deciduous forest is found in the Chhota Nagpur plateau. Prominent among them are. Mahua, Khair, Bombax (Semal tree), Shisham, Mango and Banyan Trees. Savanna type of forest is also found in this region. Various types of trees grow in a vast grassland in this region.

41. Most of the area in Bihar is covered by –
- Mountainous soil
 - Alluvial soil
 - Regur soil
 - Terai soil
 - None of the above/More than one of the above

64th B.P.S.C. (Pre) 2018

Ans. (b)

Most of the area in Bihar is covered by alluvial soil. It is spread over a maximum area in Bihar (Indo-Gangetic region).

42. Litchi production in Bihar is

- 60% of India's production
- 50% of India's production
- 74% of India's production
- 80% of India's production
- None of the above/More than one of the above

B.P.S.C. CDPO 2018

Ans. (e)

Bihar produces 45% of Litchi in the country. The leading Producer of Litchi in Bihar is Muzaffarpur at 1.48 Lakh tonnes (48%) of the total Litchi Production in Bihar. Data on ICAR - National Research Centre on Litchi.

43. In Bihar, the terms Balsundari, Tal, Karail and Balthar are used for which of the following?

- Agriculture
- Crop
- Soil
- Natural vegetation
- None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (c)

Soils in Bihar are characterised by loamy and alluvial nature. Soils here are rejuvenated every year by deposition of sand, silt and clay. These depositions are brought by Indo-Gangetic-Brahmaputra river system every year and spread through floods.

Soils of Bihar region–

Type	Region	Properties of soil
Balthar	Kaimur	Sandy, calcareous, yellow
Tal	Patna and Munger	Heavy soil
Terai	Champaran and Kishanganj	Sandy, calcareous, brown and light yellow
Bhangar	Patna, Gaya and Rohtas	Acidic and rich in lime
Khadar	Muzaffarpur, Purnia, Saharsa, Darbhanga and Bhagalpur	Dark brown and fertile
Bal Sundari	Saharsa, East and West Champaran	Lime and alkaline

Soils of Southern Plain is found between North Ganga plain and Southern plateau and it formed due to the alluvium deposited by Sone, Punpun, and Falgu Rivers.

- Karail-Kewal Soil** : It is heavy clay soil which is characterised by wet paddy lands. It is found in Rohtas to Gaya, Aurangabad, Jahanabad, Munger and Bhagalpur etc.
- Tal Soil** : It is found in backwater belt of Ganga which is spread from Buxar to Banka district. Rabi or spring crops like wheat, khesari, gram, peas, masoor, etc. are harvested.
- Balthar Soil** : It is less fertile and has less water absorption capacity. Maize, jowar, bajra, and gram are chief crops.

44. The top ranking pulses in terms of acreage in Bihar are –

- Masoor and gram
- Moong and gram
- Moong and Masoor
- Masoor and Khesari
- None of the above/More than one of the above

66th B.P.S.C. (Re. Exam) 2020

Ans. (c)

According to Economic Survey of Bihar 2023-24, the Production (Thousand Tonnes) levels of major pulses follows as :

	2022-23 (kg/ha)
Total Pulses	414
Total Kharif Pulses	16.7
Urad	5.6
Bhadai Moong	3.9
Kulthi	5.3
Other Kharif pulses	1.5
Total Rabi Pulses	397.3
Arhar (Tur)	24.3
Gram	57.2
Lentil (Masoor)	131.7
Pea	16.6
Khesari	40.7
Summer Moong	125.8
Other Rabi Pulses	1.1

So, as per given options Moong and Masoor (Lentil) would be correct. However B.P.S.C. has marked option (c) as correct answer.

45. The principal foodgrain crops of Bihar are-

- rice, wheat and maize
- sugarcane, tea and barley
- groundnut, coffee and wheat
- none of these

45th B.P.S.C. (Pre) 2001

Ans. (a)

The principal agricultural crops are rice, wheat, jute, maize and oil seeds.

46. Which is the main cash crop of Bihar state?

- Tea
- Rubber
- Sugarcane
- Coconut and Coffee

44th B.P.S.C. (Pre) 2000

Ans. (c)

Main cash crops of Bihar are – sugarcane, tobacco, oilseeds, jute. As per the value of these crops, sugarcane is at the first place. According to Bihar Economic Survey 2023-24, the total sugarcane production stood at 21475.51 Thousand tonnes. Major sugarcane produces are West Champaran (13860.57 thousand tonnes) and East Champaran (1562.68 thousand tonnes).

47. Which one of the following agro-climatic zones of Bihar produces maximum Makhana (Foxnut)?

- (a) North-West alluvial plain
- (b) North-East alluvial plain
- (c) South-West alluvial plain
- (d) South-East alluvial plain
- (e) None of the above / More than one of the above

B.P.S.C. Assistant Audit Officer 2022

Ans. (b)

Makhana also known as Fox Nut or Gorgon is an important aquatic cash crop with both nutritional and medicinal value. In India, it is mainly grown in North Bihar and parts of Assam, Manipur, West Bengal and Odisha. Bihar state alone produces approximately 90% of total Makhana production in the country. Bihar has been divided into four agro climatic zones.

48. The leading sugarcane producer district of Bihar is –

- (a) West Champaran
- (b) Sitamarhi
- (c) Gopalganj
- (d) East Champaran
- (e) None of the above/More than one of the above

66th B.P.S.C. (Re- Exam) 2020

Ans. (a)

Sugarcane is one of the most important commercial crops of Bihar and provides raw materials to one of the largest agro-based industries. As per the data given in Bihar Economic Survey 2023-24 sugarcane production stood at 21475.51 Thousand tonnes. In 2022-23, the highest productivity was observed in west Champaran (103.3 tonnes per hectare).

49. What form of agriculture is in Bihar?

- 1. Subsistence 2. Commercial
- 3. Export-intensive 4. Self-reliant

Select your answer of the following codes–

- (a) Only 1
- (b) 2 and 3
- (c) Only 2
- (d) Only 4

40th B.P.S.C. (Pre) 1995

Ans. (d)

Bihar is self-reliant in agriculture. Agriculture in the state has not been fully commercialized and export-oriented so far. Agriculture is the vital source of wealth in Bihar 47.8% of its population is engaged in agricultural sector.

50. The area under agriculture in Bihar is –

- (a) 95 lakh hectare
- (b) 85 lakh hectare
- (c) 89 lakh hectare
- (d) 89.9 lakh hectare

44th B.P.S.C. (Pre) 2000

Ans. (*)

When Bihar and Jharkhand was combined the net sown area of the state was 94.03 Lakh hectare. According to Bihar Economic Survey 2023-24 (Data, 2021-22) the net sown area of Bihar was 50.7 Lakh hectares.

51. What is the crop density in Bihar?

- (a) 108%
- (b) 118%
- (c) 128%
- (d) 138%

40th B.P.S.C. (Pre) 1995

Ans. (a)

Crop density in undivided Bihar (when this question was asked) was 108 percent. According to Economic Survey 2023-24 crop density (crop intensity) of Bihar is 145 percent in 2021-22.

52. The estimated coal reserves in Bihar is –

- (a) 1260 crore tonnes
- (b) 303 crore tonnes
- (c) 25310 crore tonnes
- (d) 16 crore tonnes

48th to 52nd B.P.S.C. (Pre) 2008

Ans. (d)

Due to the formation of a separate state of Jharkhand, there has been reduction in natural resources in Bihar. Certified reserve of coal in Bihar is nil. As per Indian Minerals Year book 2022, the estimated coal reserves in Bihar is 4437 million tonnes (1 April, 2022).

53. Coal Reserves in Bihar on January 1, 2003 is (in million tonnes) –

- (a) 260
- (b) 360
- (c) 160
- (d) 210

47th B.P.S.C. (Pre) 2005

Ans. (c)

See the explanation of the above question.

54. Palamau (Ranchi) is famous for which mineral?

- (a) Iron ore
- (b) Copper ore
- (c) Manganese ore
- (d) Bauxite ore

44th B.P.S.C. (Pre), 2000

Ans. (a)

According to Indian Minerals Year Book 2021, Palamu district of Jharkhand has the reserves of the following minerals (i) Barite (ii) Bauxite (iii) Dolomite (iv) Feldspar (v) Graphite (vi) Magnetite iron ore (vii) Quartz (viii) Sterite (ix) Phosphate (x) Andalusite.

55. What percentage of the total mineral production in the country is found in Bihar?

- (a) approx 36% (b) approx 60%
(c) approx 16% (d) none of the above

41st B.P.S.C. (Pre) 1996

Ans. (d)

According to 'Indian Minerals year Book 2014', the contribution of Jharkhand in the total mineral production is 9% and Bihar contributes less than 1 percent.

56. With reference to the mineral production in Bihar, consider the following statements:

1. Rohtas has the highest deposit of pyrites.
2. Limestone is found in Kaimur (Bhabhua), Munger (Monghyr) and Rohtas districts.
3. Gold deposits are found in Jamui district.

Which of the statements given above is/are correct?

- (a) 1 and 3 only (b) 3 only
(c) 1 and 2 only (d) More than one of the above
(e) None of the above

68th B.P.S.C. (Pre) 2022

Ans. (d)

Rohtas has the highest deposit of pyrites. Limestone is found in Kaimur (Bhabhua), Munger and Rohtas districts and gold deposits are found in Jamui district of Bihar. Hence all three statements are correct.

57. In the production of crude copper in the country, Bihar ranks-

- (a) third (b) fourth
(c) second (d) first

40th B.P.S.C. (Pre) 1995

Ans. (a)

Jharkhand (then a part of Bihar) is the third largest producer of copper. Presently, (after the creation of the state of Jharkhand) there is no production of copper in Bihar.

58. Which of the following is/are largely mined in Bihar?

- I. Coal II. Iron**
III. Manganese IV. Petroleum

Choose the correct answer from the following :

- (a) I only (b) I and II only
(c) I and III only (d) I, II and IV only

44th B.P.S.C. (Pre) 2000

Ans. (c)

Coal, Manganese and Iron ore are found in Jharkhand. Petroleum is not found in this state. Therefore, In context to the undivided Bihar (when this question was asked) option (c) is the correct answer. According to IMYB, 2022, the minerals found in Bihar are limestone, mica, pyrite, quartzite and sterile.

59. Iron ore is found in Jharkhand in the district –

- (a) Lohardagga (b) Dumka
(c) Dhanbad (d) Singhbhum

41st B.P.S.C. (Pre) 1996

Ans. (d)

Iron ore is found in West Singhbhum district of Jharkhand. In context to the undivided Bihar (when this question was asked) the correct option is (d).

60. In India, Bihar is the largest producers –

- (a) of lead (b) of manganese
(c) of mica (d) of limestone

42nd B.P.S.C. (Pre) 1997

Ans. (c)

Undivided Bihar (when this question was asked) was one of the leading producers of mica. At Present Andhra Pradesh leads with 41% share in country's total resources followed by Rajasthan (28%), Odisha (17%), Maharastra (13%), Bihar (2%) and a small quantity of resources is found in Jharkhand and Telangana.

61. Which district of Bihar has mica deposits?

- (a) Rohtas (b) Patna
(c) Gaya (d) Saran
(e) None of the above/More than one of the above

67th B.P.S.C. (Pre) 2021

Ans. (e)

According to the Indian Minerals Yearbook, 2021, Nawada district of Bihar has mica deposits.

62. Gold is found in which of the following districts of Bihar?

- (a) Munger (b) Saran
(c) Siwan (d) Jamui

69th B.P.S.C. (Pre) 2023

Ans. (d)

Bihar government has decided to accord permission for exploration of the country's largest gold reserve in Jamui district in Bihar, another major district which contain the gold reserve are Gaya, Nalanda, Jamui etc. According to IMYB 2022, largest resources in term of Gold ore (Primary) are located in Bihar (43%).

63. Which district of Bihar has the largest gold reserve?

- (a) Munger (b) Jamui
(c) Banka (d) Katihar
(e) None of the above/More than one of the above

67th B.P.S.C. (Re-Exam) (Pre) 2021

Ans. (b)

According to IMYB 2021, Jamui district of Bihar has the largest gold reserves.

64. In the production of the following in India, Bihar has monopoly in –

- (a) Limestone (b) Coal
(c) Pyrite (d) Graphite

42nd B.P.S.C. (Pre) 1997

Ans. (c)

Bihar has a monopoly in pyrite production in India.

65. Best mica ore of the world is obtained from –

1. Dhanbad 2. Hazaribagh
3. Jharia 4. Kalti

Select the correct answer from the following codes –

- (a) 1 and 2 (b) only 2
(c) 2 and 3 (d) 2 and 4

40th B.P.S.C. (Pre) 1995

Ans. (b)

Mica is found in Hazaribagh, Giridih and Kodarma districts. These areas produce about a big fraction of the total mica production of Jharkhand.

66. Match List-I with List-II and select the correct answer using the codes given below the Lists :

List-I

(Available resources in some provinces)

A. Rich in mineral resources but lacks industrialization

B. Rich in water resources but lacks infrastructure development

C. Rich in solar and wind energy but lacks water resources

D. Rich in mineral resources but lacks the means of

transportation and communication

List-II

(Names of the related provinces)

1. Jharkhand

2. Arunachal Pradesh

3. Rajasthan

4. Ladakh

A B C D

(a) 3 4 1 2

(b) 1 2 3 4

(c) 2 1 4 3

(d) More than one of the above

(e) None of the above

B.P.S.C. PRT 2023 Shift II

Ans. (b)

The correct match of available resources with related provinces is as-

(Available resources related in some provinces)

(Names of the provinces)

(a) Rich in mineral resources but lacks industrialization

(a) Jharkhand

(b) Rich in water resources but lacks infrastructure development

(b) Arunachal Pradesh

(c) Rich in solar and wind energy but lacks water resources

(c) Rajasthan

(d) Rich in mineral resources but lacks the means of transportation and communication

(d) Ladakh

67. The percent of the total geographical area of Bihar covered by forests is-

- (a) 17% (b) 23%
(c) 27% (d) 33%

42nd B.P.S.C. (Pre) 1997

Ans. (a)

When this question was asked, about 17 percent geographical area of Bihar (including Jharkhand) was under forest cover. According to 'India States of Forest Report 2021 on the basis of satellite data, 7.84%. (7380.79 sq. km) area of the total geographical (94163 sq. km) of Bihar is under forest cover 2,341 sq. km. area is under tree cover.

68. What is the percentage of all types of forest area to the total geographical area of Bihar State?

- (a) 7.27 (b) 6.87
(c) 3.21 (d) 12.77
(e) None of the above/More than one of the above

66th B.P.S.C. (Pre) 2020

Ans. (e)

According to ISFR, 2019 the forest cover in the state is 7,305.99 sq. km which is 7.76 % of the state's geographical area. The state has reported extent of recorded forest area (RFA) 6,877 sq. km which is 7.30% of its geographical area. Hence most appropriate answer would be option (e). However B.P.S.C. marked option (a) as correct answer. ISFR-2021 the forest cover in the state is 7380.79 sq. km which is 7.84% of the state geographical area.

69. The total geographical area of Bihar State is:

- (a) 94200 sq. km (b) 94316 sq. km
(c) 94163 sq. km (d) 94526 sq. km
(e) None of the above/More than one of the above

67th B.P.S.C. (Re-Exam) (Pre) 2021

Ans. (c)

The total geographical area of the state is 94163 sq. km. and the population is 104099452 (Census 2011).

70. Per capita energy consumption of the state of Bihar is :

- (a) 203kWh (b) 187kWh
(c) 161kWh (d) 145kWh
(e) None of the above/More than one of the above

60th to 62nd B.P.S.C. (Pre) 2016

Ans. (a)

Economic Survey (2015-16) mentions that the per capita consumption of the state in the energy sector has risen from 145 kWh in 2012-13 to 203 kWh in 2014-15 implying a growth of about 40% in two years which is the highest in the country. According to Bihar Economic Survey 2023-24, the per capita consumption of the Bihar in the energy sector is 329 kwh in 2021-22.

71. How much square meter of forest of area is there in Bihar?

- (a) 2812 sq. meter (b) 3612 sq. meter
(c) 2461 sq. meter (d) 2612 sq. meter

56th to 59th B.P.S.C. (Pre) 2015

Ans. (*)

The question and the options given above are wrong. It is not possible to give the correct answer from the options given above. The state of forest in Bihar is as follows – According to 'India state of Forest Report 2021 total forest cover in Bihar is 7380.79 sq. km. which is 7.84% of the total geographical area of Bihar.

72. Which of the following districts has no land under forest cover?

- (a) Bhojpur (b) Rohtas
(c) Nawada (d) Munger
(e) None of the above / More than one of the above

B.P.S.C. CDPO 2022

Ans. (e)

The state of Bihar comprises 38 districts. Out of 38 districts, only 11 have natural forests. The 11 districts that have a natural forest in the state are : Kaimur, West Champaran, Rohtas, Gaya, Aurangabad, Jehanabad, Nawada, Nalanda, Banka, and Munger. Out of total 94,163 sq.km.area of Bihar, only 7380.79 sq.km.is covered with forests. West Champaran with 903.34 sq.km.of forests – which forest that is 249.34 very dense, here it is almost impossible for sunlight to touch the ground. The district with low forest cover in BIHAR are– Sheikhpura – 1.19 sq. km.; Arwal – 4.14 sq.km.; Jehanabad – 4.43 sq.km.; Buxar – 5.89 sq.km.

73. The expansion of forest in Bihar is on the area of:

- (a) 28 lakh hectare (b) 29 lakh hectare
(c) 30 lakh hectare (d) 31 lakh hectare

39th B.P.S.C. (Pre) 1994

Ans. (b)

Forest-related data are released on two levels –

- (i) Recorded forest area
(ii) Data of the department of Indian Forest Survey
Notably, both these data differ from each other. According, to recorded data, when this question was asked, the total geographical area of Bihar and Jharkhand was 173,887 sq. km. out of which 30078 sq. km (17%) area was under forest cover. According to ISFR 2021, the total forest cover in Bihar is 7380.79 sq.km. which is 7.84% of the total geographical area.

74. The number of Indian states touching the boundary of Bihar is –

- (a) Four (b) Five
(c) Six (d) Seven

43rd B.P.S.C. (Pre) 1999

Ans. (a)

When this question was asked, the undivided state of Bihar formed boundaries with four Indian states – Madhya Pradesh, Uttar Pradesh, Odisha and West Bengal. After the bifurcation of the state, Bihar forms the border with Uttar Pradesh, West Bengal and Jharkhand.

75. Which of the following districts of Bihar transferred some of its areas to West Bengal?

- (a) Jamshedpur (b) Bhagalpur and Samastipur
(c) Purnea and Manbhum (d) Rajgir

45th B.P.S.C. (Pre) 2001

Ans. (c)

Some of the area of Purnea and Manbhum were transferred to West Bengal by the Bihar and West Bengal (Transfer of Territories) Act, 1956.

76. Which of the following city is located in the easternmost part of Bihar?

- (a) Bhagalpur (b) Patna
(c) Katihar (d) Purnea

56th to 59th B.P.S.C. (Pre) 2015

Ans. (c)

Easternmost city of Bihar is Katihar. Southwest to Katihar is Bhagalpur and south-east to Katihar lies Purnea district. Patna is located approximately in central Bihar. The map clearly shows that Katihar is located in the easternmost part.

77. The number of districts situated on the bank of Ganga river in Bihar State is :

- (a) 21 (b) 17
(c) 12 (d) 6
(e) None of the above / More than one of the above

65th B.P.C.S. (Pre) 2019

Ans. (c)

Twelve districts of Bihar (Buxar, Bhojpur, Saran, Patna, Vaishali, Samastipur, Begusarai, Munger, Khagaria, Katihar, Bhagalpur, Lakhisarai) are situated on the bank of river Ganga.
