

3. What is true about the second green revolution in India?

1. It aims at further increasing the production of wheat and rice in areas already benefited from the green revolution.
2. It aims at extending seed-water-fertilizer technology to areas which could not benefit from green revolution.
3. It aims at increasing yields of crops other than those used for the green revolution in the beginning.
4. It aims at integrating cropping with animal husbandry, social forestry and fishing

Select the correct answer from the code given below :

- (a) 1 and 2 (b) 2 and 3
(c) 2 and 4 (d) 1 and 4

47th B.P.S.C. (Pre) 2005

Ans. (c)

The Second Green Revolution in India aims at extending seed, water, fertilizer and technology to areas that could not be benefited from the Green Revolution and integrating agriculture with animal husbandry, social forestry and fishing. It does not aim to yield the crops other than those used in the Green Revolution in the beginning. Thus, statements 2 and 4 are correct.

4. Select the component of the Green Revolution by using the given code :

1. High-yielding varieties of seeds
2. Irrigation
3. Rural Electrification
4. Rural roads and marketing

Code :

- (a) Only (1) and (2) (b) Only (1),(2) and (3)
(c) Only (1),(2) and (4) (d) All four

48th to 52nd B.P.S.C. (Pre) 2008

Ans. (d)

In 1965, the introduction of high-yielding varieties of seeds (hybrid seeds), increased use of chemical fertilizers, irrigation, rural electrification and connectivity to the market places through roads led to the increase in production needed to make the country self-sufficient in food grains which were called as Green Revolution. Thus all the four components were part of the Green Revolution.

5. The local names of rice crops produced in Northern India in winter are

- (a) Aman, Aghani and Aus (b) Aman, Sali and Aghani
(c) Aman, Aus and Sali (d) More than one of the above
(e) None of the above

B.P.S.C. PRT 2023 Shift II

Ans. (b)

The main rice growing season in the country is the "Kharif" It is known as winter rice as per the harvesting time. the sowing time of winter rice is June-July and it is harvested in Non-December. Winter rice is known as 'Aman' in West Bengal, 'Sali' in Assam 'Sarrad' in Orissa, 'Agahoni' in Bihar and Uttar Pradesh etc. Whereas Autumn rice crop is known as 'Aus' in West Bengal.

6. Rainbow Revolution is related with –

- (a) Green-revolution (b) White-revolution
(c) Blue-revolution (d) All the above

48th to 52nd B.P.S.C. (Pre) 2008

Ans. (d)

On 28 July 2000, the new National Agricultural Policy was announced by the Central government. In this policy the concept of Rainbow Revolution was introduced. The various colours of the Rainbow Revolution indicate various farm practices such as Green Revolution (Foodgrains), White Revolution (Milk), Yellow Revolution (Oilseeds), Blue Revolution (Fisheries), Red Revolution (Tomatoes and meat), Golden Revolution (Fruits), Grey Revolution (Fertilizers) and so on. Thus, the concept of the Rainbow Revolution is an integrated development of crop cultivation, horticulture, forestry, fishery, poultry, animal husbandry and food processing industry.

7. The Black Revolution is related to the

- (a) Fish production (b) Coal production
(c) Crude oil production (d) Mustard production
(e) None of the above/More than one of the above

60th to 62nd B.P.S.C. (Pre) 2016

Ans. (c)

Black Revolution is associated with Crude Oil Production. Other important Revolutions are as follows –
Pink Revolution - Onion.
Red Revolution - Tomato and Meat
Blue Revolution - Fisheries
Yellow Revolution - Oilseed

FOOD CROPS

i. Rabi Crops

1. Cash Crop does not consist –

- (a) Sugarcane (b) Cotton
(c) Jute (d) Wheat

39th B.P.S.C. (Pre) 1994

Ans. (d)

Cash crops include Sugarcane, Cotton, Jute, Tobacco, Oilseeds etc and Wheat, Rice etc. are food crops.
