

The National Disaster Response Force Academy was established in 2018 by merging the existing National Civil Defence College (NCDC) in Nagpur. It serves as a premier institute providing high level disaster management training to NDRF and SDRF battalions, civil defence volunteers and disaster response personnel from SAARC and neighboring countries. Thus, it is clear that the National Disaster Response Force Academy was established in Nagpur, Maharashtra.

Transport

1. Road Transport

*Since the Indus Valley civilization in India, there has been an ancient tradition of road construction. The Grand Trunk Road connected all major cities of northern India from Sonargaon (Bangladesh) to Kabul (Afghanistan).

*The capacity of National Highways in terms of handling traffic (passenger and goods) needs to keep pace with economic growth. India has the second largest road network in the world covering about 63.45 lakh km. (Annual report 2024-25). This comprise National Highways, Expressways, State Highways, major District Roads, other District Roads and Village Roads as under-

National Highways	146195 km.
State Highways	179535 km.
Other Roads	6019723 km.
Total	6345453 km.

In India, among the major modes of transport road transport remains the dominant mode both in termm of its contribution to gross value added and freight transported. As per the National Transport Development Policy Committee road transport carries about 90% of the total passenger traffic and about 67% of freight traffic. *The Nagpur Plan (1943) divided the roads of India into four sections.

- (i) National Highways (ii) State Highways
(iii) District Roads (iv) Village Roads.

*National Highways are the most important road systems in the country, which are being constructed and maintained by the Public Work Department and the National Highway Authority. *In the year 2018-19, as per the Basic Road Statistics of India till 31 March, 2019 the total length of

National Highways is **132499 km**. There are 668 National Highways (as of March 31, 2024) in the country.

Road network as of March 31, 2019		
Road Category	2019 (km.)	% Share in Total Road
National Highways	132499	2.09
State Highways	179535	2.84
District Roads	612778	9.68
Rural Road (Includes JRY Road)	4522228	71.42
Urban Road	541554	8.55
Project Road	343163	5.42
Basic Road Statistics of India 2018-19		

Note: According to the Ministry of Transport and Highways (as of March 31, 2019), the longest National Highway in India is NH-27 E.W., which starts from Porbandar in the State of Gujarat, connecting Bamanbore, Morvi, Samakhiali, Radhanpur and Palanpur in the state of Gujarat, Pindwara, Udaipur, Mangarwar, Chittaurgarh, Kota and Baran in the state of Rajasthan, Shivpuri and Ganj in the State of Madhya Pradesh, Jhansi, Kanpur, Lucknow, Ayodhya, Gorakhpur, in Uttar Pradesh, Gopalganj, Pipara Kothi, Muzaffarpur, Darbhanga, Forbesganj, Araria and Purnia in the State of the Bihar, Dalkola, Islampur, Siliguri, Jalpaiguri, Mainaguri, Dhupgari, Falakata, Sonapur and Salasabari, in the State
