

The National Disaster Response Force Academy was established in 2018 by merging the existing National Civil Defence College (NCDC) in Nagpur. It serves as a premier institute providing high level disaster management training to NDRF and SDRF battalions, civil defence volunteers and disaster response personnel from SAARC and neighboring countries. Thus, it is clear that the National Disaster Response Force Academy was established in Nagpur, Maharashtra.

Transport

1. Road Transport

*Since the Indus Valley civilization in India, there has been an ancient tradition of road construction. The Grand Trunk Road connected all major cities of northern India from Sonargaon (Bangladesh) to Kabul (Afghanistan).

*The capacity of National Highways in terms of handling traffic (passenger and goods) needs to keep pace with economic growth. India has the second largest road network in the world covering about 63.45 lakh km. (Annual report 2024-25). This comprise National Highways, Expressways, State Highways, major District Roads, other District Roads and Village Roads as under-

National Highways	146195 km.
State Highways	179535 km.
Other Roads	6019723 km.
Total	6345453 km.

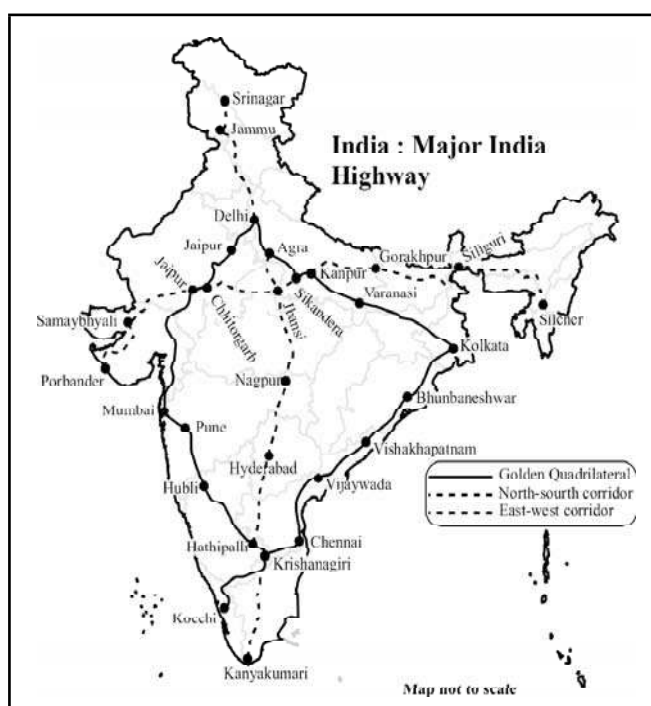

In India, among the major modes of transport road transport remains the dominant mode both in termm of its contribution to gross value added and freight transported. As per the National Transport Development Policy Committee road transport carries about 90% of the total passenger traffic and about 67% of freight traffic. *The Nagpur Plan (1943) divided the roads of India into four sections.

- (i) National Highways (ii) State Highways
(iii) District Roads (iv) Village Roads.

*National Highways are the most important road systems in the country, which are being constructed and maintained by the Public Work Department and the National Highway Authority. *In the year 2018-19, as per the Basic Road Statistics of India till 31 March, 2019 the total length of

National Highways is **132499 km**. There are 668 National Highways (as of March 31, 2024) in the country.

Road network as of March 31, 2019		
Road Category	2019 (km.)	% Share in Total Road
National Highways	132499	2.09
State Highways	179535	2.84
District Roads	612778	9.68
Rural Road (Includes JRY Road)	4522228	71.42
Urban Road	541554	8.55
Project Road	343163	5.42
Basic Road Statistics of India 2018-19		

Note: According to the Ministry of Transport and Highways (as of March 31, 2019), the longest National Highway in India is NH-27 E.W., which starts from Porbandar in the State of Gujarat, connecting Bamanbore, Morvi, Samakhiali, Radhanpur and Palanpur in the state of Gujarat, Pindwara, Udaipur, Mangarwar, Chittaurgarh, Kota and Baran in the state of Rajasthan, Shivpuri and Ganj in the State of Madhya Pradesh, Jhansi, Kanpur, Lucknow, Ayodhya, Gorakhpur, in Uttar Pradesh, Gopalganj, Pipara Kothi, Muzaffarpur, Darbhanga, Forbesganj, Araria and Purnia in the State of the Bihar, Dalkola, Islampur, Siliguri, Jalpaiguri, Mainaguri, Dhupgari, Falakata, Sonapur and Salasabari, in the State

of West Bengal and Bongaigaon, Bijini, Potachar Kuchi, Nalbari, Dishpur, Nagaon, Lumding, Haflong terminating at its junction with NH-37 near Silchar in Assam. New NH-7 connects Fazilka to Mana.

*According to the National Highway Authority of India, the highest length of National Highway (as on December 31, 2024) is found in **Maharashtra** (18462 km). Thereafter **Uttar Pradesh** (12123 km), **Rajasthan** (10733 km) and **Madhya Pradesh** (9160 km) stand in second, third and fourth place respectively. The ***Golden Quadrilateral project** of India interconnects Delhi, Mumbai, Chennai and Kolkata. Its total length is 5846 km. Apart from this, the Highway development project connects Ahmedabad, Bengaluru, Bhubaneswar, Jaipur, Kanpur, Pune, Surat, Guntur, Nellore, Vijayawada and Visakhapatnam. This project was started by the government in the year 2001. *The **East-West Corridor** connects **Silchar** (Assam) to **Porbandar** (Gujarat) and The **North-South** corridor connects Srinagar to Kanyakumari. They cross each other in **Jhansi** (Uttar Pradesh). *The **Pradhan Mantri Bharat Jodo Pariyojana (PMBJP)** is an ambitious project of the Government of India which is related to the development of highways.

*Under this project, tourist destinations and economically important sites were linked to the four-lane road on the basis of the **BOT** (Build Operate Transfer). *Construction and maintenance of the state highway are done by the concerned State Public Works Department (PWD). These roads connect all the major towns and cities of the state. *According to basic road statistics for 2018-19, the states leading in state highways are - 1. **Maharashtra** (32,005 km), 2. **Karnataka** (19,473 km), 3. **Gujarat** (16,746 km), 4. **Rajasthan** (15,061 km), 5. **Andhra Pradesh/Arunachal Pradesh** (13,500 km). The length of the state highway in Uttar Pradesh is approximately **7427 km**. The **Mumbai-Pune expressway** is **India's first 6-lane** path expressway. It starts from Kalamboli in Mumbai and travels a long journey of about 95 km to Dehu Road in Pune.

***Pradhan Mantri Gram Sadak Yojana** was started on December 25, 2000. The primary objective of the PMGSY is to provide connectivity, by way of an all-weather road, to the eligible unconnected habitations in rural areas with a population of 500 persons and above in plain areas. **Jawahar Tunnel** passes through the Banihal pass of the Pir Panjal range in the Union Territory of Jammu and

Kashmir. *The length of the National Highways at present (annual report 2024-25) in the major states of the northeast is as follows- Assam (4077 km), Arunachal Pradesh (4367 km), Manipur (1840 km), Nagaland (1670 km), Mizoram (1499 km), Tripura (889 km) and Sikkim (709 km). *Some of the highways of the country connecting neighboring countries have been declared as international highways, such as Lahore-Amritsar-Delhi, Dhaka-Kolkata and Barahi-Kathmandu.

1. The share of Road Transport in total transport of India is—

- | | |
|----------|---------|
| (a) 100% | (b) 80% |
| (c) 60% | (d) 40% |

U.P.P.C.S. (Mains) 2014

Ans. (b)

India has approximately 63.45 lakh kilometers of the road network, which is the second largest road network in the world. In the field of transport, roadways have a leading position. About 65% of freight and 80% of passenger traffic is carried by the roads (when the question was asked), but presently, about 67% of freight and 90% of passenger traffic are carried by roads.

2. In total there are how many National Highways in India and approximately what is their total length?

- | | |
|------------------------|-------------------------|
| (a) 34 and 16,000 kms. | (b) 44 and 24, 000 kms. |
| (c) 54 and 32,000 kms. | (d) 64 and 40,000 kms |

45th B.P.S.C. (Pre) 2001

Ans. (d)

When this question was asked was the number of National Highways in India was 64 and the length, 40,000 kms. According to recent data as of December 31, 2024, the number of National Highways is around 668 and the total length is 146195 kilometers.

3. Which is the longest National Highway of India?

- | | |
|------------------------|------------------------|
| (a) National Highway 1 | (b) National Highway 2 |
| (c) National Highway 8 | (d) National Highway 7 |

M.P.P.C.S. (Pre) 2013

Ans. (d)

When this question was asked, NH-7 was the longest National Highways in India. According to the Ministry of Transport and Highways (as of March 31, 2019), NH-27 EW (4112.62 km) is the longest National Highway in India.

4. **National Highway No. 4 passes through :**

- (a) Tamil Nadu, Andhra Pradesh, Karnataka, Goa
- (b) Goa, Karnataka, Tamil Nadu, Kerala, Karnataka
- (c) Maharashtra, Goa, Karnataka, Kerala
- (d) Maharashtra, Andhra Pradesh, Karnataka, Tamil Nadu

Chhattisgarh P.C.S. (Pre) 2003

Ans. (d)

When this question was asked, NH 4 was 1,235 km in length and passed through the states of Maharashtra, Andhra Pradesh, Karnataka and Tamil Nadu. Presently NH4 (330.70 km) connects Mayabandar Port Blair and Chiriyatapu in the Andaman and Nicobar Islands.

5. **National Highway 4 does not pass through :**

- (a) Andhra Pradesh
- (b) Madhya Pradesh
- (c) Rajasthan
- (d) Uttar Pradesh

U.P.U.D.A./L.D.A. (Mains) 2010

Ans. (*)

See the explanation of the above question.

6. **Consider the following pairs:**

National Highway	Cities Connected
1. NH 4	: Chennai and Hyderabad
2. NH 6	: Mumbai and Kolkata
3. NH 15	: Ahmedabad and Jodhpur

Which of the above pairs is/are correctly matched?

- (a) 1 and 2 only
- (b) 3 only
- (c) 1, 2 and 3
- (d) None

I.A.S. (Pre) 2014

Ans. (d)

When this question was asked, NH 4 linked Mumbai to Chennai. NH 4 passes through Thane, Pune, Kolhapur, Bangalore, Chittoor, etc. Hyderabad does not lie on its way. Hence, pair 1 is not correct.

NH6 begins from Hazira (Gujarat) and ends at Kolkata. The NH6 passes through the cities of Surat, Dhule, Jalgaon, Bhusaval, Akola, Amravati, Nagpur, Bhandara, Durg, Raipur, Mahasamund, Sambalpur and Kolkata. Mumbai does not lie on its way. Hence, pair 2 is also not correct.

NH 15 connects Samakhiali in Gujarat with Pathankot in Punjab and passes through Pathankot, Amritsar, Kotkapura, Bhatinda, Ganganagar, Bikaner, Jaisalmer and Barmer. Ahmedabad and Jodhpur are both not on its way. Hence, option (d) is correct.

7. **Which one of the following states has the largest Kilometers of National Highways in India :**

- (a) Andhra Pradesh
- (b) Madhya Pradesh
- (c) Rajasthan
- (d) Uttar Pradesh

U.P.P.C.S. (Pre) 2000

Ans. (d)

According to the then data of the National Highways Authority of India, Uttar Pradesh had the maximum length of National Highways in India. As of December 31, 2024 Maharashtra has the maximum length (18462 km.) of NH in India and Uttar Pradesh stands in second position (12123 km).

8. **Which of the following states of India has a maximum total length of state highways?**

- (a) Gujarat
- (b) Rajasthan
- (c) Uttar Pradesh
- (d) Maharashtra

U.P.U.D.A./L.D.A. (Pre) 2013

Ans. (d)

According to 'Basic Road Statistics - 2013', the scenario of the total length of state highways in the mentioned states till 31, March is as follows :

State	Total length (in kms) of state highways	
	(2012-13)	(2018-19)
Maharashtra	— 38765	32,005
Gujarat	— 18506	16,746
Rajasthan	— 10465	15,061
Uttar Pradesh	— 7703	7427

Note: As per the new report Maharashtra has the highest share in the total length of state highways, followed by Karnataka, Gujarat, Rajasthan and Andhra Pradesh.

9. **Which State of India has the maximum length of state highways?**

- (a) Uttar Pradesh
- (b) Bihar
- (c) Madhya Pradesh
- (d) Maharashtra

U.P.U.D.A./L.D.A. (Pre) 2010

Ans. (d)

See the explanation of the above question.

10. Which of the following statements about the National Highways Development Project are correct?

- (1) It connects Delhi, Mumbai and Kolkata.
- (2) Its total length is 5,846 km.
- (3) The North-South corridor connects Srinagar and Kanyakumari
- (4) East-West corridor connects Silchar and Dwarka

U.P.P.C.S. (Mains) 2008

Ans. (b)

The National Highways Development Project connects the four major cities of Delhi, Mumbai, Chennai and Kolkata. Its total length is 5,846 km. The North-South and East-West corridors connect Srinagar in the North to Kanyakumari in the South, including from Salem to Kanyakumari (via Coimbatore and Kochi) and Silchar in the East to Porbandar in the West. Hence statements 2 and 3 are correct.

11. The East-West Corridor connects _____ to _____ -

- (a) Imphal to Ahmedabad
- (b) Dimapur to Vadodara
- (c) Silchar to Porbandar
- (d) Guwahati to Kandla Port
- (e) Question not attempted

Raj. P.C.S. (Pre) 2023

Ans. (c)

See the explanation of the above question.

12. Which development is associated with Golden Quadrilateral?

- (a) Highways
- (b) Harbor
- (c) Power Grids
- (d) Tourism Networks

U.P. Lower Sub. (Pre) 2004

Ans. (a)

The Golden Quadrilateral Project relates to the highways. Under this project, four metropolitan cities of the country were being connected by road.

13. Golden Quadrilateral Project of India joins

- (a) Delhi–Mumbai–Chennai–Kolkata
- (b) Delhi–Jhansi–Bengaluru–Kanyakumari
- (c) Srinagar–Delhi–Kanpur–Kolkata
- (d) Porbandar–Bengaluru–Kolkata–Kanpur

M.P.P.C.S. (Pre) 2016

Ans. (a)

The Golden Quadrilateral is a highway network connecting many of the major industrial and cultural centers of India. It forms a quadrilateral connecting the four major metro cities of India, viz., Delhi (North), Kolkata (East), Mumbai (West) and Chennai (South).

14. What is the Golden Quadrilateral?

- (a) Rail lines joining metros
- (b) Major Air Routes
- (c) National Highway Project
- (d) Cold Trade Routes
- (e) None of the above/More than one of the above

60th to 62nd B.P.S.C. (Pre) 2016

Ans. (c)

See the explanation of the above question.

15. 'Pradhanmantri Bharat Jodo Pariyojna' is related to:

- (a) Communication
- (b) Social Integration
- (c) Linking of Rivers
- (d) Development of Highways

M.P.P.C.S. (Pre) 2013

Ans. (d)

Pradhanmantri Bharat Jodo Pariyojna is an ambitious scheme of the Indian Government, which is related to the development of highways. Under this project, tourist places and economically important places will be connected by corridors built on the BOT - (Build, Operate, Transfer) principle.

16. The proposed East-West and North-South Express Highways cross at :

- (a) Gwalior
- (b) Jhansi
- (c) Bhopal
- (d) Sagar

U.P.P.C.S. (Pre) 1999

Ans. (b)

The East-West Corridor connects Silchar to Porbandar and the North-South Corridor links Srinagar to Kanyakumari. They cross each other at Jhansi (Uttar Pradesh). That is why Jhansi is considered as the junction of the North-South and East-West Corridors.

17. The East-West corridor of the Golden Quadrilateral connects which of the following centres (nodes) ?

- (a) Silchar and Porbandar
- (b) Guwahati and Ahmedabad

- (c) Kandla and Tinsukia
(d) Itanagar and Jamnagar

M.P.P.C.S. (Pre) 2019

Ans. (a)

See the explanation of the above question.

18. The meeting town of North-South and East-West Corridor Super-highway is :

- (a) Hyderabad (b) Delhi
(c) Nagpur (d) Jhansi

R.A.S./R.T.S. (Pre) 2013

Ans. (d)

See the explanation of the above question.

19. Two National Highways i.e., Srinagar – Kanyakumari highway & Silchar –Porbandar highway, which are constructed under the National Highway Development Project shall meet at :

- (a) Bhopal (b) Gwalior
(c) Jhansi (d) Nagpur

U.P.U.D.A./L.D.A. (Pre) 2001

Ans. (c)

See the explanation of the above question.

20. With reference to India's projects on connectivity, consider the following statements:

1. East-West Corridor under Golden Quadrilateral Project connects Dibrugarh and Surat.
2. Trilateral Highway connects Moreh in Manipur and Chiang Mai in Thailand via Myanmar.
3. Bangladesh-China-India-Myanmar Economic Corridor connects Varanasi in Uttar Pradesh with Kunming in China.

How many of the above statements are correct?

- (a) Only one (b) Only two
(c) All three (d) None

I.A.S. (Pre) 2023

Ans. (d)

The East-West Corridor connects Silchar to Porbandar (Gujarat). Hence statement 1 is not correct. Significantly the Myanmar- India- Thailand Trilateral Highway links the three nations, passing through Bagan in Myanmar, on its route from Moreh in Manipur in India to Mae Sot in Thailand.

Therefore statement 2 is incorrect. It is worth mentioning here that the BCIM corridor would stretch from Kunming in the Yunnan province of China to Kolkata, touching at nodes like Mandalay in Myanmar and Dhaka in Bangladesh on route. Hence, statement 3 is incorrect.

21. Arrange the following cities located on the North-South corridor in a sequence from North to South.

Select the correct answer using codes given below:

- A. Nagpur B. Agra**
C. Krishnagiri D. Gwalior

Code :

- (a) B, D, A and C (b) A, B, D and C
(c) B, C, A and D (d) D, B, C and A

R.A.S./R.T.S. (Pre) 2016

Ans. (a)

According to the question the North-South corridor is the largest ongoing highway project in India. It is the second phase of the National Highway Development Project (NHDP). The correct option from North to South is Agra, Gwalior, Nagpur and Krishnagiri. Hence, (a) is the correct answer.

22. Which among the following is situated on North- South corridor?

- (a) Lucknow (b) Agra
(c) Kota (d) Kanpur

R.A.S./R.T.S. (Pre) 2021

Ans. (b)

See the explanation of the above question.

23. Which one of the following pairs of cities has recently been connected by a six-lane expressway:

- (a) Ahmedabad and Vadodara
(b) Dhaka and Chittagong
(c) Mumbai and Pune
(d) Islamabad and Lahore

I.A.S. (Pre) 1998

U.P.P.C.S. (Pre) 2001

U.P.P.C.S. (Pre) 2003

Ans. (c)

The Mumbai and Pune Expressway is India's first six-lane concrete, high speed, access controlled, tolled expressway. It spans over a distance of 94.5 km connecting Mumbai and Pune.

24. Which one of the following cities is not connected by National Highway No. 3.

- (a) Agra (b) Bhopal
(c) Dhule (d) Gwalior

U.P.P.C.S. (Pre) 2001

Ans. (b)

When this question was asked option (b) was the correct answer. Presently NH-3 connects Atari (India/Pakistan Border), Amritsar, Jalandhar, Hoshiarpur in the State of Punjab, Naduan, Hamirpur, Toni Devi, Awa Devi, Mandi, Kullu, Manali, Gramphoo, and Keylong in the State of Himachal Pradesh and terminating at Leh in the State of Jammu and Kashmir.

25. The Pradhan Mantri Gram Sadak Yojana is :

- (a) To augment road connectivity and provide food grains to the poorest of the poor at cheaper rates
(b) To facilitate patrolling of the area to prevent misuse of electricity by unauthorized persons
(c) To help police to reach the place of crime more swiftly to control crime-spurt
(d) To develop community life in villages which are not well connected

U.P.P.C.S. (Pre) 2001

Ans. (d)

Pradhan Mantri Gram Sadak Yojana (PMGSY) was launched on 25th December 2000 as a fully funded Centrally Sponsored Scheme to provide all-weather road connectivity in rural areas of the country that are not connected.

26. What is the correct sequence of the following Indian states in descending order of their length of surface roads per 100 km² of their areas?

1. Haryana
2. Maharashtra
3. Punjab
4. Tamil Nadu

Select the correct answer using the code given below:

- (a) 4, 3, 2, 1 (b) 4, 3, 1, 2
(c) 3, 4, 1, 2 (d) 3, 4, 2, 1

I.A.S. (Pre) 1998

Ans. (d)

When the question was asked option (d) was the correct answer. According to 'Basic Road Statistics - 2018-19.'

States	Length of surface roads per 100 km ²
Punjab	— 293.59 km
Maharashtra	— 208.47 km
Tamil Nadu	— 206.97 km
Haryana	— 113.75 km

27. With reference to Indian transport systems, consider the following statements :

1. The Indian railway system is the largest in the world.
2. National Highways cater to 45 percent of the total transport demand.
3. Among the states, Kerala has the highest density of surface roads.
4. National Highway No. 7 is the longest in the country.

Which of these statements are correct?

- (a) 1 and 2 (b) 1 and 3
(c) 2 and 3 (d) 2 and 4

I.A.S. (Pre) 2002

Ans. (d)

When the question was asked, National Highways catered to 40 to 45% of the total transport demand. Among the states, Maharashtra has the highest density of surface roads and National Highway No. 7 was the longest (presently NH-27 EW) in the country .

28. The National Highway from Amritsar to Calcutta via Delhi is numbered :

- (a) 1 (b) 2
(c) 4 (d) 8

I.A.S. (Pre) 1995

Ans. (b)

None of the National Highways, given in the options passes through Amritsar to Kolkata via Delhi. The route of all the highways (old) is given below –
NH 1 - Delhi, Ambala, Jalandhar, Amritsar, Indo-Pak Border.
NH 2- Delhi, Mathura, Agra, Kanpur, Allahabad, Varanasi, Mohania, Barhi, Barhaman, Kolkata.
NH 4 - Thane, Pune, Belgaum, Hubli, Bangalore, Ranipettai, Chennai.

NH 8 - Delhi, Jaipur, Ajmer, Udaipur, Ahmedabad, Vadodara, Mumbai.

Presently, new NH routes are given below -

NH 1 - The highway connecting Uri to Leh.

NH 2 - Dibrugarh (Assam) to Tuipang (Mizoram).

NH 4 - The highway connecting Mayabandar to Port Blair hiriyatapu in Andaman Nicobar Islands.

NH 8 - Karimganj (Assam) to Sabrum (Tripura).

29. carries 40 percent of road traffic in India –

- (a) National Highways
- (b) State roads
- (c) District roads
- (d) Village roads

48th to 52nd B.P.C.S. (Pre) 2008

Ans. (a)

According to the Annual Report 2024-25 the Indian road network of 63.45 lakh km, is the second largest in the world, which is constructed and maintained by the Public Works Department (PWD) and the National Highways Authority of India (NHAI). The NH network consists of approximately 146195 km length.

30. Which of the following National Highways has the longest length in Madhya Pradesh?

- (a) NH-3 Agra-Gwalior-Dewas-Bombay (Mumbai)
- (b) NH -7 Varanasi-Rewa-Jabalpur-Salem
- (c) NH-12 Jabalpur-Bhopal-Jaipur
- (d) NH-26 Jhansi-Sagar-Lakhnadon

M.P.P.C.S. (Pre) 2008

Ans. (a)

NH 3 (Old Number) has the longest length in Madhya Pradesh (712 km) among the given options.

31. Which among the following National Highway route is the longest?

- (a) Agra- Mumbai
- (b) Chennai - Thane
- (c) Kolkata - Hazira
- (d) Pune - Machilipatnam

Jharkhand P.C.S. (Pre) 2011

Ans. (c)

National Highway (Old Number) routes mentioned in the question and their length are given below :

National Highway	Number	Length (in km)
Agra- Mumbai	(3)	1161
Chennai-Thane	(4)	1235
Kolkata-Hazira	(6)	1949
Pune - Machilipatnam	(9)	841

According to the Ministry of Transport and Highways (as of March 31, 2019), NH-27 EW (4112.62 km) is the longest National Highway in India.

32. Which one of the following is NOT correctly matched?

- (a) Haldia - Allahabad - National Waterway
- (b) Nasik -Pune - National Highway-50
- (c) Durgapur-Kolkata - Express Highways
- (d) Hyderabad - Headquarters of South Central Railway

U.P.P.C.S. (Mains) 2002

Ans. (d)

National Waterway (NW1) is extended from Haldia to Allahabad (Prayagraj). NH - 50 is located between Nasik and Pune, NH-50 and NH-3 is currently known as NH-60. Durgapur - Kolkata is interlinked with Express Highway -2 Old NH-2, now containing new NH-19GQ and NH-44NS. The Headquarters of South Central Railway is situated in Secunderabad not in Hyderabad. Thus, option (d) is not correctly matched.

33. Arrange the following states in descending order of their length of National Highways. Use the codes given below to select the correct answer :

- (i) Arunachal Pradesh (ii) Mizoram
- (iii) Nagaland (iv) Sikkim

Code :

- (a) (ii) (i) (iv) (iii)
- (b) (i) (ii) (iii) (iv)
- (c) (iv) (iii) (ii) (i)
- (d) (iii) (ii) (iv) (i)

U.P.P.C.S. (Mains) 2004

Ans. (b)

The descending order of the length of National Highways in the above states is as follows :

(State)	(Length of National Highways) (in km) (As of 31.03.2024)
Arunachal Pradesh	- 4285.39
Nagaland	- 1670.47
Mizoram	- 1498.67
Sikkim	- 709.07

34. 'Jawahar Tunnel' passes through which place?

- (a) Pir Panjal (b) Banihal
(c) Burjila (d) Jojila

Chhattisgarh P.C.S. (Pre) 2014

Ans. (b)

Jawahar Tunnel or Banihal Tunnel is a road tunnel in the Union Territory of Jammu and Kashmir. It is maintained by the Border Road Organisation (BRO). Thus, option (b) is the most appropriate answer.

35. If you travel by road from Kohima to Kottayam, what is the minimum number of states within India through which you can travel, including the origin and the destination?

- (a) 6 (b) 7
(c) 8 (d) 9

I.A.S. (Pre) 2017

Ans. (b)

Analyzing the shortest travel route by road from Kohima to Kottayam, the minimum number of states through which one can travel, including the origin and destination, is seven, i.e., Nagaland (origin), Assam, West Bengal, Odisha, Andhra Pradesh and then through either Tamil Nadu to Kerala (Kottayam), or through Andhra Pradesh to Karnataka to Kerala.

36. Out of the following which National Highway does not pass through State of Madhya Pradesh?

- (a) NH-3 (b) NH-12
(c) NH-7 (d) NH-8

M.P. P.C.S. (Pre) 2019

Ans. (*)

On March 5, 2010, based on the notification issued by the Ministry of Road Transport and Highways, Government of India, the new National Highway number were issued by converting the old National Highway numbers. According to this new list, the list of National Highways and related states is as follows :

NH-3 : Punjab, Himachal Pradesh, Jammu and Kashmir (Undivided)

NH-7 : Haryana, Himachal Pradesh, Punjab, Uttarakhand

NH-8 : Assam, Tripura

NH - 12 : West Bengal

Hence, none of the above mentioned National Highways from the state of Madhya Pradesh pass through it. If the question is based on an old National Highway serial number, had it been so, National Highway (Old) - 8 would have been the correct answer. But the question has no clarity. Since the question was asked in the year 2020 and the new NH numbers have become effective , the question seems to be flawed.

37. What is revised number of the National Highways connecting Indore to Jaipur?

- (a) 52 (b) 47
(c) 03 (d) 46

M.P. P.C.S. (Pre) 2019

Ans. (a)

The revised number of the National Highway connecting Indore to Jaipur is 52. It was part of NH3 in the old numbering of National Highways.

38. Which state has maximum road density?

- (a) Haryana (b) Kerala
(c) Gujarat (d) Punjab

Jharkhand .P.C.S. (Pre) 2021

Ans. (b)
