

Multi-Purpose River Valley Projects

i- Narmada Valley Project :

*The Narmada is the fifth largest river in India. In 1945-46, a comprehensive program was drafted for irrigation, production of electricity and flood management in the Narmada Basin. In this project, 30 large, 135 medium and 3000 small dams and barrages on the Narmada and its tributaries were declared to be constructed.

***The Sardar Sarovar Project** has been established on the Narmada river in Gujarat (163 Meters high near Navgaon). It will produce 1450 Megawatt of hydroelectricity.

*57% of the electricity produced from this project will be supplied to **Madhya Pradesh**.

Beneficiary states from this project are **Gujarat, Rajasthan, Maharashtra and Madhya Pradesh**.

Medha Patkar founded 'Narmada Dharanagrast' in February 1986 with the objective of opposing this project. In 1989, several local organizations merged and named it the "**Narmada Bachao Aandolan**" (N.B.A.). The **Narmada Sagar Project** is also known as "**Indira Sagar Dam**". This dam is situated near Khandwa district (M.P.) in Narmada town. The target of irrigation of 2.70 lakh Hectares annually and 1000 MW production of electricity has been set.

*There are several projects in the Narmada Valley, such as **Tawa, Barna, Kolar, Sukta and Matiyari** projects. The irrigation capacity of about 3,98,300 hectares of land has been attained through these projects.

*13.50 MW of electricity is produced from the Tawa project.

*Various projects have been started at the tributaries of the river Narmada, such as the **Man project** at the Man river , **Chandra Shekhar Azad project** at Hathani river and **Upper Veda project** at the Veda river .

1. The beneficiary states of the Sardar Sarovar Project are–

- (a) Gujarat, Maharashtra. M.P. and Rajasthan
- (b) Andhra Pradesh, M.P., Gujarat and Maharashtra
- (c) Orissa, M.P., Gujarat and Maharashtra
- (d) M.P., Gujarat, Karnataka and Maharashtra

U.P. Lower Sub. (Spl) (Pre) 2004

U.P.P.C.S. (Pre) 1999

Ans. (a)

Sardar Sarovar Dam (height - 163 meters) has been constructed on Narmada river near Navgaon in Gujarat. It has installed capacity of 1450 M.W. electricity generation. The beneficiary States of the Sardar Sarovar Project are Gujarat, Rajasthan, Maharashtra and Madhya Pradesh. Hence (a) is the correct answer.

2. On which of the following rivers is the Sardar Sarovar Dam being constructed?

- (a) Narmada
- (b) Chambal
- (c) Sutluj
- (d) Mahanadi

U.P.P.C.S. (Pre) 1992

Ans. (a)

See the explanation of the above question.

3. Which one of the following rivers is associated with Sardar Sarovar Project?

- (a) Narmada
- (b) Tapi (Tapi)
- (c) Godavari
- (d) Cauvery (Kaveri)

Uttarakhand P.C.S. (Pre) 2012

Ans. (a)

See the explanation of the above question.

4. In which of the following irrigation projects to four states have partnership ?

- (a) Bansagar Project
- (b) Bhandar Project
- (c) Rajghat Project
- (d) Sardar Sarovar Project

M.P.P.C.S. (Pre) 2024

Ans. (d)

The Sardar Sarovar Project is a significant multi-state, multipurpose river valley project on the Narmada River. The primary objectives of this project are irrigation, drinking water supply and hydroelectric power generation. Four states are involved in this project : Gujarat, Madhya Pradesh, Maharashtra and Rajasthan. It is one of India's largest Water resource management initiatives.

5. Maximum benefits occupying state by Sardar Sarovar Dam is :

- (a) Gujarat
- (b) Odisha
- (c) Madhya Pradesh
- (d) Rajasthan

U.P.P.C.S. (Pre) 1993

Ans. (c)

Madhya Pradesh gets 65.18% of water from the Narmada river of this project.
