

17. Which of the following states was the largest producer of pulses in 2011-12 ?

- (a) Tamil Nadu (b) Uttar Pradesh  
(c) Rajasthan (d) Madhya Pradesh

U.P.R.O./A.R.O. (Mains) 2013

U.P.P.C.S. (Mains) 2013

Ans. (d)

When the question was asked option (d) was correct answer. According to the data of Economic Survey 2024-25, in the Year 2023-24, the largest producer of total pulses in India is Madhya Pradesh.

18. Which of the following pairs is not correctly matched?

- | (Crop)        | (Variety) |
|---------------|-----------|
| (a) Mustard   | Varuna    |
| (b) Field Pea | Sapna     |
| (c) Linseed   | Surya     |
| (d) Groundnut | Kaushal   |

U.P. R.O./A.R.O. (Pre) 2017

Ans. (c)

Surya is a variety of Mango, Papaya and Potato. It is not a variety of Linseed.

## 'Silk'

\* India is the second largest producer of silk in the world after China.

\* **Mulberry Silk, Tasar Silk, Muga Silk and Eri Silk** are four types of natural Silk produced in India.

\* Chemically silk is made up of a protein secreted by caterpillar famously known as **Silkworm**. These Silkworms thrive on some special plants and they develop a **cocoon** like protective layer around them for their survival.

\*Life cycle of Silkworm consists of four stages:-

**Egg, Caterpillar, Pupa, Moth.**

\* To obtain silk the silkworms are prevented from reaching the moth stage by killing the larva putting them into boiling water so as to save the Cocoon from breaking, from which the commercially important continuous fibre of Silk is obtained which is used for weaving Silk clothes.

\*According to the data released in the annual report of the Central Silk Board, 2022-23, Karnataka is the largest silk producing state in India, followed by Andhra Pradesh.

\***Karnataka** is major producer of Mulberry Silk. Here **42.75%** of Mulberry Silk is produced. Karnataka also pro-

duces **32.31%** of total raw silk produced in India (2022-23).

\*Andhra Pradesh stands second after Karnataka by producing 25.45% of total **raw silk** produced in India.

\***Assam & BTC** is the major producer of **Muga Silk** producing a total of 80.84% of Muga silk produced in India.

\***Eri Silk** is produced mostly in Assam. Assam & BTC share 74.66% of total Eri Silk production in India.

\* **Tasar Silk** is classified into two categories **Tropical** and **Oak Tasar**. Jharkhand produces most of India's **Tropical Tasar (2022-23)** while Manipur is the major producer of **Oak Tasar** in India. Whereas Tasar Silk as a whole is produced mostly in Jharkhand (2022-23).

1. Which state is the largest 'silk' producing state ?

- (a) Bihar (b) Chhattisgarh  
(c) Karnataka (d) Assam

Chhattisgarh P.C.S. (Pre) 2005

Ans. (c)

According to year 2022-23 data, Karnataka is the leading producer of mulberry silk, with 42.75% of the total mulberry silk production of the country. It is notable that out of the total raw silk production in the country 32.31% is produced by the State of Karnataka.

2. More than three-fourths of India's production of raw silk comes from –

- (a) Andhra Pradesh and Karnataka  
(b) Andhra Pradesh and West Bengal  
(c) Karnataka and Assam  
(d) West Bengal and Manipur

U.P.P.C.S. (Mains) 2006

Ans. (a)

When the question was asked three- fourths of India's total raw silk production came from Karnataka and Andhra Pradesh. Presently, 2022-23 these two states jointly account for more than 57.77% of the total raw silk production of the country.

3. The leading mulberry silk producing Indian State is –

- (a) Andhra Pradesh  
(b) Tamil Nadu  
(c) Karnataka  
(d) West Bengal

U.P. P.C.S. (Mains) 2017

Ans. (c)

See the explanation of the above question.

4. Which of the following pairs is correctly matched :-

- (a) Eri-silk – Assam  
(b) Muga silk – Arunachal Pradesh
