

10. Khetri Mines situated in Rajasthan is famous for :

- (a) Copper
- (b) Iron
- (c) Diamond
- (d) Coal
- (e) None of the above/More than one of the above

66th B.P.S.C. (Re-Exam) (Pre) 2020

Ans. (a)

See the explanation of the above question.

v. Bauxite

*Bauxite is an ore of aluminium. Its colour varies from white-pink to red depending on the quantity of iron content.

*Bauxite is found in the laterite rocks of the tertiary period. It is mainly used in the production of alumina and aluminium. Originally bauxite is hydrated aluminium oxide.

*As per the figures of the year 2022 Indian Minerals Yearbook, Odisha is the largest (2021-22, P) producer (75.82%) as well as the state having the largest reserves/resources (as of 1/04/2022, P) of bauxite (41.49%). Major bauxite resources are concentrated in the East Coast Bauxite deposited in Odisha and Andhra Pradesh.

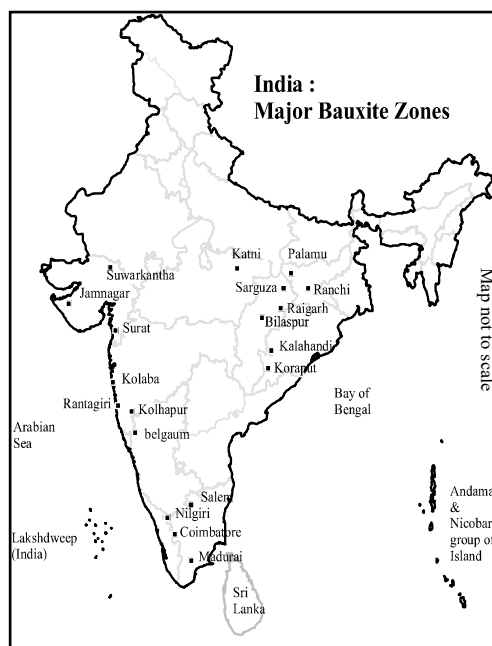

*Bauxite in Odisha is obtained from the rocks of **Khondalite ranges**. This is found in the **Koraput** and **Raigarh** regions.

*In Gujarat, it is mainly found in **Dwarka** and **Devbhumi**. **Lohardaga**, **Gumla** and **Latehar** are the major bauxite regions of Jharkhand.

*The production of bauxite at 22494 thousand tonnes in 2021-22 (P) increased by about 10% compared to that of the previous year. NALCO is the leading producer of bauxite and contributed 33% of the total production. The share of Public Sector mines was about 49% of the total production in 2021-22 (P), as against 52% in the previous year.

*Leading bauxite producing states as per the figures of 2021-22 (P) are-

1. Odisha (16449396 Tonnes)
2. Gujarat (2018309 Tonnes)
3. Jharkhand (1808725 Tonnes)
4. Chhattisgarh (968247 Tonnes)
5. Maharashtra (640345 Tonnes)

1. Bauxite is an ore of –

- (a) Lead
- (b) Aluminium
- (c) Zinc
- (d) Copper

U.P.P.C.S. (Pre) 1997

Ans. (b)

Bauxite is an ore of aluminium. Its colour varies from white, pink or red depending on the quantity of iron. According to 'Indian Minerals Yearbook 2022', the three leading producers of bauxite are –

- (i) Odisha
- (ii) Gujarat
- (iii) Jharkhand

2. Which of the following two states are the leading producers of bauxite in India, as per the annual Report of the Ministry of Mines, 2020-21?

1. Odisha
2. Andhra Pradesh
3. Chhattisgarh
4. Gujarat

Select the correct answer using the code given below:

Code :

- (a) 1 and 2
- (b) 1 and 3
- (c) 1 and 4
- (d) 2 and 4

U.P. R.O./A.R.O. (Mains) 2021

Ans. (c)

According to the Annual Report of 2020-21, Ministry of Mines, Odisha was the largest producing state in bauxite. It is worth mentioning that Gujarat and Chhattisgarh obtained second and third positions in bauxite production. According to data from Indian Minerals Yearbook 2022, two largest producing states in bauxite are Odisha and Gujarat respectively.
