

When the question was asked option (b) was the correct answer. According to the data of Minerals Yearbook-2022, the Mica producing state is only Rajasthan (in 2021-22). The state with reserves/resources (as on 1/4/2015) of Mica are as follows :

Andhra Pradesh	-	41%
Rajasthan	-	28%
Odisha	-	17%
Maharashtra	-	13%
Bihar	-	2%

6. In which of the following districts in India the largest 'Mica Belt' is found?

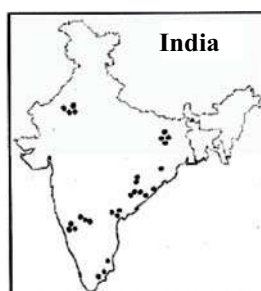

- (a) Balaghat and Chhindwada
- (b) Udaipur, Ajmer and Alwar
- (c) Hazaribagh, Gaya and Munger
- (d) Salem and Dharampuri

U.P. Lower Sub. (Pre) 2009

Ans. (c)

The largest mica belt of India is found in Hazaribagh, Gaya, Munger and Koderma districts, which are known as "Capital of Mica". Mica is found in veins of Metamorphic rocks.

7.

In the above map, the black marks show the distribution of :

- (a) Asbestos
- (b) Gypsum
- (c) Limestone
- (d) Mica

I.A.S. (Pre) 2001

Ans. (d)

In the given map, the black marks show the distribution of Mica because it is found in all the places marked.

8. India is the world's leading producer of :

- (a) Diamonds
- (b) Iron Ore
- (c) Mica
- (d) Tungsten

U.P.U.D.A. /L.D.A. (Pre) 2001

Ans. (c)

In the year 2001, when the question was asked, India was the leading producer of Mica Sheet in the world. According to data from World Mineral Production 2018-22, China stands first and Madagascar is in second place in the production (in 2022) of Mica.

9. In which one of the following minerals, India leads in production in the world?

- (a) Sheet mica
- (b) Copper
- (c) Gypsum
- (d) Iron ore
- (e) None of the above / More than one of the above.

65th B.P.S.C. (Pre) 2018

Ans. (e)

According to data from World Mineral Production 2018-2022, in 2022 China is the largest producer of mica, and Chile is the largest producer of copper. The United State of America is the largest producer of gypsum and Australia is also the largest producer of iron ore.

ii. Marble

*Marble is a 'Minor Mineral' as defined under clause (e) of section 3 of the Mines and Minerals (Development & Regulation) Act, 1957.

*The term "marble" is derived from the Latin word "Murmur", which in turn is said to have been coined from the Greek word "Mormorous", meaning shining stone.

*Marble is a type of metamorphic rock that is formed from sedimentary carbonate rocks by contact metamorphism. Marble is metamorphosed from dolostone or sedimentary carbonate rocks. ***Makrana** is situated in Nagaur district in Rajasthan.

High-quality marble is found here. This marble is used in the **Taj Mahal** and **Victoria Memorial (Kolkata)**. *Polishing and cutting factory of marble is situated in **Katni (M.P.)**. *According to data from Indian Minerals Yearbook 2022, **Rajasthan** is the largest producer of marble in India.

1. Where is the best quality of marble found ?

- (a) Makrana
- (b) Jabalpur
- (c) Jaisalmer
- (d) Singhbhum

U.P.P.C.S. (Pre) 1992

Ans. (a)

Makrana is situated in Nagpur district in Rajasthan, where the best quality of marble is found. It is also known as Makrana marble. The Taj Mahal and Victoria Memorial (Kolkata) are made of Makrana marble.
