

The correct match is -

<u>Coal Resources</u>	<u>States</u>	Total geological resources of coal (in million tons) as of 01-04-2022)
Hutar	Jharkhand	250
Ib River	Odisha	33982
Tatapani - Ramkola	Chhattisgarh	4462
Umaria	Madhya Pradesh	181

Source : Indian Minerals Yearbook, 2022

57. Combustion of underground coal occurs in the State of :

- (a) West Bengal
- (b) Bihar
- (c) Jharkhand
- (d) Odisha
- (e) None of the above / More than one of the above

67th B.P.S.C. (Pre) 2022

Ans. (c)

Underground coal burning is taking place in Jharkhand State. This burning is taking place in the Jharia Coalfield.

58. In India, what is the role of the Coal Controller's Organization (CCO)?

1. CCO is the major source of Coal Statistics in Government of India.
2. It monitors progress of development of Captive Coal/Lignite blocks.
3. It hears any objection to the Government's notification relating to acquisition of coal-bearing areas.
4. It ensures that coal mining companies deliver the coal to end users in the prescribed time.

Select the correct answer using the code given below:

- (a) 1, 2 and 3
- (b) 3 and 4 only
- (c) 1 and 2 only
- (d) 1, 2 and 4

I.A.S. (Pre) 2022

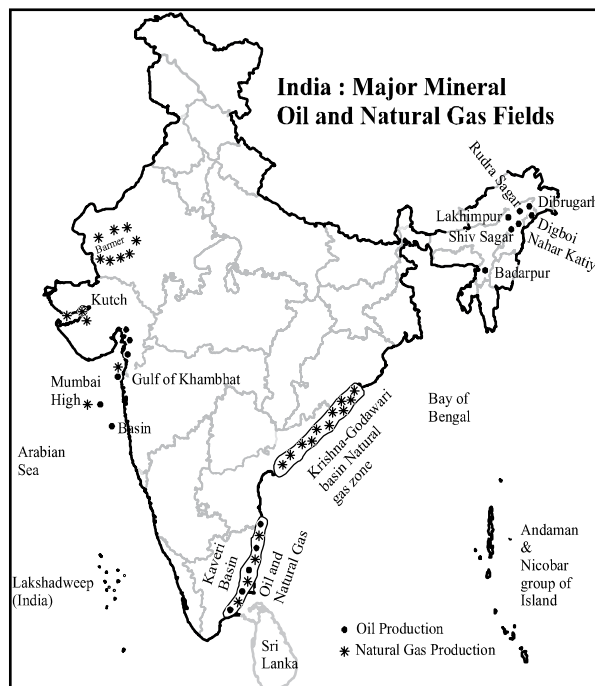

Ans. (a)

The office of the Coal Control Organization in India was established in the year 1916. Earlier it was known as the office of the Coal Commissioner. Under the Statistics Collection Act 2008, the Coal Controller is the statistical authority related to coal and lignite statistics. He has been entrusted with the work of editing the Annual Coal and Lignite Survey, and Provisional Coal Statistics and Coal Directory of the Government of India. It monitors coal and lignite blocks. Under the Coal Bearing Areas (Acquisition and Development) Act, 1957, the Coal Controller is empowered to hear objections to the notification of the Central Government relating to the acquisition of coal bearing land and to submit its report to the government, provided that the statement 4 is not the work or responsibility of the four Coal Regulatory Organizations.

ii. Petroleum and Natural Gas

*Petroleum or mineral oil is the next major energy source in India after coal. *It provides **fuel** for heat and lighting, **lubricants** for machinery and **raw materials** for a number of manufacturing industries. *Petroleum refineries act as a nodal industry for synthetic textiles, fertilizers and numerous chemical industries. *It is found in synclines and fault traps of tertiary rocks in India. *At first, petroleum was detected near Margherita by Assam Railway and Trading Company in 1860. Next, in 1867, the first oil well was drilled in Makum (Assam). The oldest oil deposits in India are in Digboi (Assam). It is situated in the Brahmaputra Valley. *The four main regions of crude mineral oil are –

- (1) Brahmaputra Valley (2) Gujarat Coast
- (3) Western Coast (4) Eastern Coast

Brahmaputra Valley is the oldest oil production field. Here, the main oil production areas lie in the valleys of the **Nova**, Dihing and **Burhi Dihing** rivers in the Lakhimpur and Sibsagar districts. Major oil producing centers are **Nahar Katiya**, **Digboi**, **Hugri Jan-Moran**, **Rudra Sagar**, **Lakwa** and **Surmaghati**. **Nuna Mati oil refining plant** is situated in Assam. It comes under the authority of Indian Oil Corporation. It was established in 1962 near Guwahati. *Similarly, **Digboi** and **Numaligarh oil refineries** are situated in Assam. Gujarat is placed at second in crude oil and condensate production in India during 2020-21 P (as per Indian Minerals Yearbook 2022) and placed at third if we include offshore crude oil production. ***Ankleshwar** is extended over about 38.98 km square area of Bharuch district of Gujarat. Here, oil was searched for in 1960 and production started in 1961.

***Lunej oil production region** is situated in the upper portions of the Gulf of Khambat in Gujarat.

***Kalol field** is situated in Ahmedabad (Gujarat). Its major producing centers include **Navgram**, **Dholka**, **Somasan**, **Kosamba**, etc.

***Koyali oil refinery** (IOCL) is located in Gujarat.

*The city of Jamnagar was established by Jam Rawal in 1540 in Gujarat. At that time, it was known as Nawanagar. Here the largest refineries in the world have been established by the Reliance Industries. The western offshore region is an important center of oil production in India. Under it, the **Bombay High Basin** is situated about 160 km from the coast of Mumbai. It was jointly explored by Russia and India. First oil well was dug up here in 1974.

***Aliabet Mineral Oil Field** is included in the western offshore region. This oil field is situated near Aliabet Island in the Cambay Basin, about 45 km away from Bhavnagar.

*the eastern offshore region of oil fields in India includes the deltaic regions of the **Godavari**, **Krishna** and **Cauvery** rivers which are highly associated with mineral oil and natural gas.

***Narimanam** and **Kovilappal** offshore regions produce crude oil in the Cauvery Basin. Deposits of crude oil have been found in the Rajasthan Desert, Bilaspur Tehsil of Rampur district (U.P.) and Jwalamukhi region of Punjab.

***Maugalbhagyam**, **Shakti** and **Aishwarya** are prominent oil-fields identified in the **Barmer Sanchores basin** near Barmer in Rajasthan.

* Oil deposits in the offshore region of India are mainly controlled by the central government.

* Most of the crude oil produced in India is from this

region only.

Crude Oil and Condensate Production in India (IMYB, 2022)		
(Quantity in thousand tonnes)		
State/Area	2019-20 (R)	2020-21 (P)
1. Offshore	16003	15391
2. Rajasthan	6653	5891
3. Gujarat	4707	4651
4. Assam	4093	3902
5. Tamil Nadu	415	410
6. Andhra Pradesh	243	195
India	32170	30494

Bombay High, which lies in the offshore region, is the largest petroleum-producing region. *At present (April 1, 2021), out of the total 23 oil refineries, there are **18** public sectors, **2** joint ventures and **3** private sector undertakings. **Barauni** and **Vishakhapatnam** oil refineries are situated in Andhra Pradesh, respectively.

***Mathura oil refinery** is situated in Uttar Pradesh.

***Tatipaka oil refinery** is situated in Andhra Pradesh. It falls under the authority of ONGC (Oil Natural Gas Corporation).

*Similarly, other major oil refineries of India are **Haldiya** (West Bengal), **Panipat** (Haryana), **Mangaluru** (Karnataka), and **Bina** (Madhya Pradesh). *India established its **strategic Petroleum Reserve Limited** to keep India ready to tackle the situation of blockage of crude oil supply. **Three institutes** (Visakhapatnam, Mangaluru, Padur) were selected for this task.

*The first terrible energy crisis occurred in India, in 1973 when oil-exporting countries had increased the oil prices by more than 4 times.

*According to the Indian Minerals Yearbook 2022, major production [2020-21 (P)] of natural gas in India is carried out from the offshore region of the Bombay High Basin.

Leading natural gas producers are-

1. Offshore region (18429 thousand tonnes)
2. Assam (2995 thousand tonnes)
3. Rajasthan (2040 thousand tonnes)
4. Tripura (1634 thousand tonnes)
5. Gujarat (1138 thousand tonnes)

*According to the Indian Minerals Yearbook 2022, the production of natural gas was 28673 MMSCM in 2020-21 (P). Offshore areas continued to be the largest producer of natural gas (utilised) with a share of 64%, followed by Assam

(10%), Rajasthan (7%), Tripura (6%), Gujarat (4%), Tamil Nadu (3%) and the remaining 6% of the total production was contributed together by Andhra Pradesh, Arunachal Pradesh, Jharkhand (CBM), Madhya Pradesh (CBM) and West Bengal (CBM). As much as 85% of the total production came from public sector companies whereas the remaining 15% was that of the Private sector companies during the year 2020-21 (P).

***Hazira - Vijaipur - Jagdishpur (HVJ)** gas pipeline has been constructed by **Gas Authority of India Limited (GAIL)** to transport gas.

*Oil exploration and production in India is undertaken by Oil India Limited and ONGC (Oil and Natural Gas Corporation Limited). ***‘Hydrogen Vision-2025’** is related to the warehousing of petroleum products.

*Oil transportation and distribution is supervised by **Gas Authority of India Limited (GAIL)**. *The largest deposits of Natural gas are found in the **Bombay High Basin**. Besides this Naharkatiya, Moran Region (Assam), Jagatiya, Godha (Gujarat), Mangamdam, Awadi, Virugambakkam (Tamil Nadu) Namchick and Miyao-Pung (Arunachal Pradesh) etc. also have reserves of oil and natural gas resources.

*Reliance Industries Limited searched the abundant stock of natural gas in 2002-2003 in the Cauvery-Godavari-6 Basin in offshore region of Andhra Pradesh. Reliance is the first private company in India that is exploring natural gas at depths about 6000 meters below the ocean surface in the offshore region.

*According to Hydrocarbon DG (Directorate General), ONGC has estimated 187.5 TCF gas reserves in 5 basins.

- (1) Cambay
- (2) Ganga Valley
- (3) Assam and Assam Arakan
- (4) Krishna-Godavari
- (5) Cauvery

***Hydrogen Exploration Licensing Policy (HELP)** has been replaced by **New Exploration Licensing Policy (NELP)** since April 1, 2016.

*As of April 1, 2022 a total of 224 blocks (77 under PSCs and 147 under RSCs) are active comprising 11 Pre-NELP, 21 small and medium sized field PSCs, 45 NELP, 53 discovered small fields and 94 OALP (under HELP Policy) blocks.

Sl.No.	Refineries	States/UTs
1	Digboi	Assam
2	Guwahati	Assam
3	Barauni	Bihar

4	Koyali	Gujarat
5	Bongaigaon	Assam
6	Haldia	West Bengal
7	Mathura	Uttar Pradesh
8	Panipat	Haryana
9	Paradeep	Odisha
10	Mumbai	Maharashtra
11	Visakhapatnam	Andhra Pradesh
12	Mumbai	Maharashtra
13	Kochi	Kerala
14	Manali	Tamil Nadu
15	Narimanam	Tamil Nadu
16	Numaligarh	Assam
17	Mangaluru	Karnataka
18	Tatipaka	Andhra Pradesh

JV Refineries

19	Bina	Madhya Pradesh
20	Bathinda	Punjab

Private Sector Refineries

21	Jamnagar	Gujarat
22	SEZ, Jamnagar	Gujarat
23	Vadinar	Gujarat

1. The oldest oil field in India is –

- (a) Bombay High, Maharashtra
- (b) Ankleshwar, Gujarat
- (c) Navgam, Gujarat
- (d) Digboi, Assam

56th to 59th B.P.S.C. (Pre) 2015

Ans. (d)

The oldest oil field in India is Digboi (Assam). This is the oil field of Brahmaputra valley. The Brahmaputra valley is the oldest oil basin.

2. The leading producer of petroleum in India is:

- (a) Assam
- (b) Gujarat

(c) Tamil Nadu

(d) Maharashtra

U.P.P.C.S. (GIC) 2010

U.P.P.C.S. (Mains) 2004

U.P.P.C.S. (Mains) 2003

Ans. (b)

At the time when the question was asked, Gujarat was the leading producer of petroleum. As per the data of Indian Minerals Yearbook 2022, in the year 2020-21 (P), the sequence of crude oil and condensate producing states is given below—

(State)	Crude oil & Condensate (in thousand tonnes)
Rajasthan	— 5891
Gujarat	— 4651

3. Which one of the following states is the largest producer of petroleum in 2013-14 ?

- (a) Assam (b) Gujarat
(c) Rajasthan (d) Andhra Pradesh
(e) None of these

Chhattisgarh P.C.S. (Pre) 2015

Ans. (c)

According to the Indian Minerals Yearbook 2022, in the year 2020-21 (P), the largest production of crude oil and condensate state is Rajasthan.

4. Ankleshwar is famous for –

- (a) Petrol reserves
(b) Diamond mines
(c) Atomic power station
(d) Multipurpose river project

U.P. Lower Sub. (Pre) 2004

Ans. (a)

Ankleshwar is famous for petrol reserves. Ankleshwar is extends about 38.98 km². in the Bharuch district of Gujarat.

5. In which State is the Lunej petrol producing area located?

- (a) Assam (b) Mumbai–High
(c) Arunachal Pradesh (d) Gujarat

Uttarakhand U.D.A./L.D.A. (Mains) 2006

Ans. (d)

In the Cambay Basin Lunej area, oil is found in sedimentary rocks of the Tertiary period.

6. Navgam oil field is located in –

- (a) Assam (b) Gujarat
(c) Maharashtra (d) Andhra Pradesh

U.P.R.O./A.R.O. (Mains) 2013

Ans. (b)

Navgam oil field is located in Gujarat. Other oil fields in Gujarat are Ankleshwar, Kalol, Bakrol and Mehsana.

7. Where was the first oil well drilled in India?

- (a) Digboi (b) Makum
(c) Naharkatiya (d) Lakwa

U.U.D.A./L.D.A. (Pre) 2013

Ans. (b)

In India, the first oil well was drilled in the area of Makum in upper Assam on 26th March, 1867. The depth is 118 feet (35.9 m). Initially, the commission has mentioned option (b) as the correct answer which was later changed to option (a) in their revised answer key, which is wrong.

8. Which one amongst the following is the oldest refinery in India?

- (a) Haldia (b) Digboi
(c) Koyali (d) Mathura

Uttarakhand U.D.A./L.D.A. (Mains) 2006

Ans. (b)

Indian oil refineries and their respective years of commissioning are given below –

Oil refinery	Year of Commissioning
Digboi	- 1901
Koyali (Gujarat)	- 1965
Haldia (West Bengal)	- 1975
Mathura (Uttar Pradesh)	- 1982

9. Which pair is correctly matched ?

- (a) Assam - Barauni oil refinery
(b) Andhra Pradesh - Visakhapatnam oil refinery
(c) Maharashtra - Koyana oil refinery
(d) Gujarat - Mathura oil refinery

R.A.S./R.T.S. (Pre) 1992

Ans. (b)

Barauni oil refinery is an Indian Oil Corporation Ltd. refinery situated in Bihar. There is no oil refinery in Koyana. Mathura oil refinery (Indian Oil Corporation Ltd.) is in Uttar Pradesh. Visakhapatnam oil refinery (Hindustan Petroleum Corporation Ltd.) is in Andhra Pradesh. Hence option (b) is the correct answer.

10. Which one of the following pairs is correctly matched?

- | | |
|----------------|---------------|
| (a) Haldia | - Odisha |
| (b) Jamnagar | - Maharashtra |
| (c) Numaligarh | - Gujarat |
| (d) Panagudi | - Tamil Nadu |

U.P.P.C.S. (Pre) 2006

Ans. (d)

Haldia is a city in West Bengal.

Jamnagar is a city located on the western coast of India in Gujarat. The petroleum company, Reliance Industries has established the world's largest oil refinery here.

The Numaligarh Refinery is located in Golaghat district, Assam, owned by Numaligarh Refinery Ltd., a joint venture between Bharat Petroleum and the Government of Assam.

11. Which is the biggest refinery in India?

- | | |
|---------------|--------------|
| (a) Jam Nagar | (b) Pradweep |
| (c) Digboi | (d) Tatipaka |

U.P. R.O./A.R.O. (Pre) (Re-Exam) 2006

Ans. (a)

See the explanation of the above question.

12. Where is no oil refinery mentioned below?

- | | |
|------------|--------------|
| (a) Koyali | (b) Noonmati |
| (c) Hatia | (d) Barauni |

U.P.U.D.A./L.D.A. (Pre) 2010

Ans. (c)

According to the option given in the question, there is no oil refinery in Hatia (Jharkhand).

13. When did the first oil crisis/energy crisis occur in India?

- | |
|----------------------------|
| (a) During 1950s and 1960s |
| (b) During 1930s and 1940s |
| (c) During 1990s and 2000s |
| (d) During 1970s and 1980s |

56th to 55th B.P.S.C. (Pre) 2011

Ans. (d)

The first oil/energy crisis occurred during the year 1973 when oil exporting countries (OPEC) suddenly increased the oil price four times.

14. The Noonmati oil refinery is located in the state of

- | | |
|-------------|-----------------|
| (a) Assam | (b) Bihar |
| (c) Gujarat | (d) West Bengal |

U.P.P.C.S. (Mains) 2008

Ans. (a)

The Noonmati oil refinery is located in the state of Assam. It's established in 1962.

15. Match List-I with List-II and select the correct answer using the codes given below the lists:

List- I (Oil refinery)	List- II (States)
A. Haldia	1. Assam
B. Jamnagar	2. Kerala
C. Kochi	3. Gujarat
D. Numaligarh	4. West Bengal

Code :

	A	B	C	D
(a)	4	3	1	2
(b)	4	3	2	1
(c)	1	2	3	4
(d)	3	4	2	1

U.P.P.S.C. (Pre) 2005

Ans. (b)

The correct matched list of oil refineries with their respective states is as follows :

Haldia	—	West Bengal
Jamnagar	—	Gujarat
Kochi	—	Kerala
Numaligarh	—	Assam

16. Match List-I with List-II and select the correct answer using the codes given below the lists:

List- I (Oil refineries)	List- II (States)
A. Numaligarh	1. Bihar
B. Tatipaka	2. Gujarat
C. Koyali	3. Andhra Pradesh
D. Barauni	4. Assam

Code :

	A	B	C	D
(a)	1	4	3	2
(b)	2	1	4	3
(c)	3	2	1	4
(d)	4	3	2	1

U.P.U.D.A./L.D.A. (Spl.) (Mains) 2010

Ans. (d)

The correct match of given states and oil refineries is as follows—

(Oil Refineries)	(States)
Numaligarh	— Assam
Tatipaka	— Andhra Pradesh
Koyali	— Gujarat
Barauni	— Bihar

17. Tatipaka Oil Refinery is located in the state of –

- (a) Assam (b) Uttar Pradesh
(c) Karnataka (d) Andhra Pradesh

U.P.P.C.S. (Pre) 2016

Ans. (d)

Tatipaka Oil Refinery is located at Tatipaka Village in the Konaseema region of Andhra Pradesh, set up by the Oil and Natural Gas Corporation of India.

18. Where is Tatipaka oil refinery located?

- (a) Tamil Nadu (b) Gujarat
(c) Andhra Pradesh (d) Maharashtra

M.P.P.C.S. (Pre) 2023

Ans. (c)

See the explanation of the above question.

19. Match items of List-I with those of List-II and select your correct answer from the codes given below the lists:

List- I (Oil refineries)	List- II (States)
A. Noonmati	1. Gujarat
B. Koyali	2. Haryana
C. Mangalore	3. Assam
D. Panipat	4. Karnataka

Code :

	A	B	C	D
(a)	1	3	2	4
(b)	4	1	3	2
(c)	2	4	1	3
(d)	3	1	4	2

U.P.S.C. (R.I.) 2014

Ans. (d)

The correct matched list is given below –

(Oil Refineries)	(States)
Noonmati	– Assam
Koyali	– Gujarat
Mangalore	– Karnataka
Panipat	– Haryana

20. Match items of List-I with those of List-II and select your correct answer from the codes given below :

List- I (Oil refineries)	List- II (States)
A. Tatipaka	1. Gujarat
B. Koyali	2. Tamil Nadu
C. Nagapattinam	3. Andhra Pradesh
D. Numaligarh	4. Assam

Code :

	A	B	C	D
(a)	2	1	4	3
(b)	3	1	2	4
(c)	4	3	1	2
(d)	1	2	4	3

U.P.P.C.S. (Mains) 2013

Ans. (b)

The correct match is as follows :

(Oil Refineries)	(State)
Tatipaka	– Andhra Pradesh
Koyali	– Gujarat
Nagapattinam	– Tamil Nadu
Numaligarh	– Assam

21. Which one of the following is not correctly matched?

Oil Refineries	Set up by
(a) Bina (M.P.)	- BPCL (& OOCL)
(b) Tatipaka (A.P.)	- ONGC
(c) Digboi (Assam)	- IOCL
(d) Koyali (Gujarat)	- HPCL

R.A.S./R.T.S. (Pre) 2015

Ans. (d)

The correctly matched list is as follows :

Oil refineries	Established
Bina (M.P.)	B.P.C.L. (& OOCL)
Tatipaka (A.P.)	O.N.G.C.
Digboi (Assam)	I.O.C.L.
Koyali (Gujarat)	I.O.C.L.

22. Match List-I with List-II and select the correct answer using the code given below :

List-I (Oil refineries)	List-II (States)
A. Barauni	1. Assam
B. Bongaigaon	2. Bihar
C. Bina	3. Gujarat
D. Koyali	4. Madhya Pradesh

Code :

(a) A-2, B-4, C-3, D-1	(b) A-2, B-1, C-4, D-3
(c) A-3, B-1, C-4, D-2	(d) A-1, B-2, C-3, D-4

U.P. R.O./A.R.O. (Pre) 2023

Ans. (b)

Oil refineries	States
Barauni	Bihar
Bongaigaon	Assam
Bina	Madhya Pradesh
Koyali	Gujarat

23. In which of the following state of India 'Koyali' petroleum refinery is located?

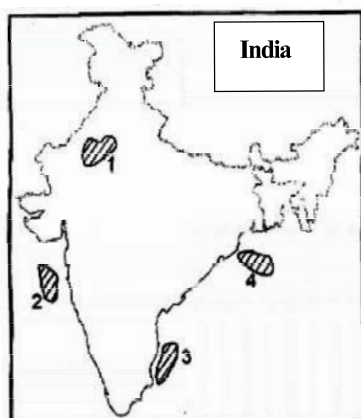

- (a) Assam (b) Kerala
(c) Gujarat (d) Karnataka

U.P. R.O/A.R.O. (Mains) 2016

Ans. (c)

Koyali refinery is located in Gujarat.

24. Commercial production of mineral oil has started recently in which one of the areas of India, labeled 1, 2, 3 and 4 in the rough map given below:

- (a) 1 (b) 2
(c) 3 (d) 4

I.A.S. (Pre) 1998

Ans. (c)

The place marked '3' in the map is the Cauvery onshore basin in Tamil Nadu, where the commercial production of mineral oil started.

25. Mangla-Bhagyam, Shakti and Aishwarya –

- (a) Are three schemes for the upliftment of scheduled caste girls
(b) Are oil fields discovered in Barmer-Sanchore basin
(c) Are three universities established in the private sector
(d) Produce natural gas from Jaisalmer basin to supply Ramgarh power plant

R.A.S./R.T.S. (Pre) 2008

Ans. (b)

The Mangla Bhagyam and Aishwarya constitute key oil fields discovered in the Barmer-Sanchore basin. The Mangla field is considered to be the largest onshore hydrocarbon field in India.

26. 14 N.E.L.P. Blocks, 1 J.V. Block, 2 Nomination Blocks and 4 C.B.M. Blocks are related to :

- (a) Gypsum belt (b) Gold belt
(c) Petroleum Exploration (d) Lignite belt

R.A.S./R.T.S. (Pre) 2010

Ans. (c)

14 N.E.L.P. Blocks, 1 J.V. Blocks, 2-Nomination Blocks, and 4 C.B.M. Blocks are related to petroleum exploration.

27. 'Hydrogen Vision- 2025' is related to –

- (a) Warehousing of petroleum products
(b) Euro-I and Euro-II norms for vehicles
(c) 'Green House' effect
(d) None of the above

U.P. Lower Sub. (Spl) (Pre) 2004

Ans. (a)

'Hydrogen Vision-2025' is related to warehousing of petroleum products.

28. To insulate the country from disruptions in the supply of crude oil, India has established "India Strategic Petroleum Reserves Ltd." It will construct underground storages at three places. Identify the place which has not been selected for the purpose.

- (a) Visakhapatnam (b) Mangalore
(c) Padur (d) Ankaleshwar

U.P. Lower Sub. (Pre) 2008

Ans. (d)

To ensure energy security, the Government of India had decided on strategic crude oil storages at three locations, namely Visakhapatnam, Mangaluru and Padur. These facilities are being managed by Indian Strategic Petroleum Reserves Limited (ISPRL). Ankleshwar is not included in this.

29. The oil exploration in India is undertaken by –

- (a) Hindustan Petroleum
(b) Indian Oil Corporation
(c) Oil India Ltd.
(d) All of the above

U.P.P.C.S. (Spl) (Mains) 2004

Ans. (c)

Among the companies given in the question, oil exploration in India is undertaken by Oil India Ltd. In addition to this, Oil and Natural Gas Corporation Ltd. (ONGC) is a key player in the field of oil exploration in India.

30. HBJ pipeline transports natural gas from:

- (a) Ankleshwar (b) Kalol

(c) South Basin

(d) Godavari Basin

U.P.P.C.S. (Mains) 2006

Ans. (c)

HBJ pipeline transports natural gas from the South Basin which is situated in the coastal area of Bombay High.

31. Hajira-Bijapur-Jagdishpur (HBJ) Gas Pipeline has been constructed by which of the following authorities?

(a) Gas Authority of India Limited

(b) Oil India Limited

(c) Indian Oil Company

(d) Hindustan Petroleum Corporation Limited

U.P.R.O./A.R.O. (Pre) 2014

Ans. (a)

Hajira-Bijapur-Jagdishpur (HBJ) gas pipeline has been constructed by Gas Authority of India Limited (GAIL) to transport gas.

32. HVJ Natural gas pipeline does not have which of the following gas pumping stations?

(a) Aonla

(b) Auraiya

(c) Babrala

(d) Guna

Uttarakhand P.C.S. (Pre) 2021

Ans. (*)

Integrated HVJ holds natural gas pipeline fold pumping stations in all the above mentioned locations.

33. Recently, in which part of India, Reliance Industries Limited has explored a huge amount of natural gas?

(a) Badmer region

(b) Bombay High region

(c) Andaman and Nicobar region

(d) Coastal Andhra region

U.P. Lower Sub. (Pre) 2002

Ans. (d)

Krishna-Godavari Basin (KG Basin) is a peri-cratonic passive margin basin in India, spread across more than about 50,000 sq. km in the Krishna and Godavari basins in Andhra Pradesh. The site is known for the D-6 block, where Reliance Industries discovered the biggest natural gas reserves in India in 2002-03.

34. KG-D6 Basin, which has been in the news since April, 2009 has large reserves of :

(a) Coal

(b) Crude Oil

(c) Gas

(d) Uranium

U.P.P.C.S. (Mains) 2011

Ans. (c)

See the explanation of the above question.

35. Most of the production of natural gas in India comes from :

(a) Andhra Pradesh Coast

(b) Gujarat Coast

(c) Bombay High

(d) Tamil Nadu Coast

U.P.U.D.A./L.D.A. (Pre) 2013

U.P.P.C.S. (Pre) 2012

Ans. (c)

A huge mass of India's natural gas production comes from the western offshore regions, particularly the Bombay High Complex. According to data from the Indian Minerals Yearbook 2022, the production of natural gas (utilised) was 28673 MMSCM. It decreased by 8.00% in 2020-21 (P), as compared to 31184 MMSCM in the previous year. Offshore areas continued to be the largest producer of natural gas (utilised) with a share of 64%, followed by Assam (10%) and Rajasthan (7%).

36. Which one of the following facts about Bombay High Oil Field is not correct?

(a) Bombay High Oil Field lies 60 km off Mumbai coast.

(b) It was discovered in 1965.
