

Rourkela Steel Plant is located on the main Mumbai-Kolkata S.E. Railway line in Sundergarh district, Odisha. The Rourkela Steel Plant was set up with the help of the German company Krupps and Demag. It began production in 1959. It is located near limestone, dolomite and manganese ore deposits. This plant obtains iron ore from Mayurbhanj, Keonjhar, Sundergarh etc.,. Significantly coal is obtained from Bokaro, Jharia and Talchar, limestone and dolomite from Birmittapur, manganese ore from Noamundi and coking coal from Kargali coal washery. This plant gets cheaper hydropower from Hirakud.

16. Which group of steel plants was established in India after independence?

- (a) Jamshedpur, Durgapur, Bhilai
- (b) Bhilai, Durgapur, Byhadravati
- (c) Bhilai, Durgapur, Rourkela
- (d) Kulti-Burnpur Vishakapatnam, Salem

R.A.S./R.T.S. (Pre) 2013

Ans. (c)

During the second Five Year Plan after independence, Rourkela Steel Plant (Odisha), Bhilai Steel Plant (Chhattisgarh) and Durgapur Steel Plant (West Bengal) were established with the collaboration of Germany, Russia and the United Kingdom respectively.

17. Which among the following iron and steel production plants is located far from coalfields?

- (a) Bokaro
- (b) Durgapur
- (c) Kulti-Asansol
- (d) Bhadravati

U.P.U.D.A./L.D.A. (Pre) 2013

Ans. (d)

Among the above iron and steel production plants Bokaro, Durgapur & Kulti-Asansol are located near coal reserves while the Bhadravati iron and steel production plant is located far from coal reserves.

18. Which of the following Iron and Steel plants is not close to a raw material area?

- (a) Jamshedpur
- (b) Rourkela
- (c) Durgapur
- (d) Salem

U.P.P.C.S. (Pre) 2017

Ans. (*)

The main raw materials used in the iron and steel industry are iron ore, coal, manganese, limestone, silica, chromite, feldspar, etc. The question does not specify which raw materials used in manufacturing the iron and steel are not found in the vicinity of the places given in the options for the aforementioned question. Certain raw materials are not found in the near vicinity of Durgapur and certain others are nearby the Salem plant. So both options (c) and (d) seem to be correct. However, the question should be removed from evaluation considering the fact that all four options to answer the aforementioned question can be correct on the materials relied upon by the commission.

19. As of early 2022, which country was at the top in steel production in the world?

- (a) India
- (b) Japan
- (c) England
- (d) China

U.P.P.C.S. (Pre) 2022

Ans. (d)

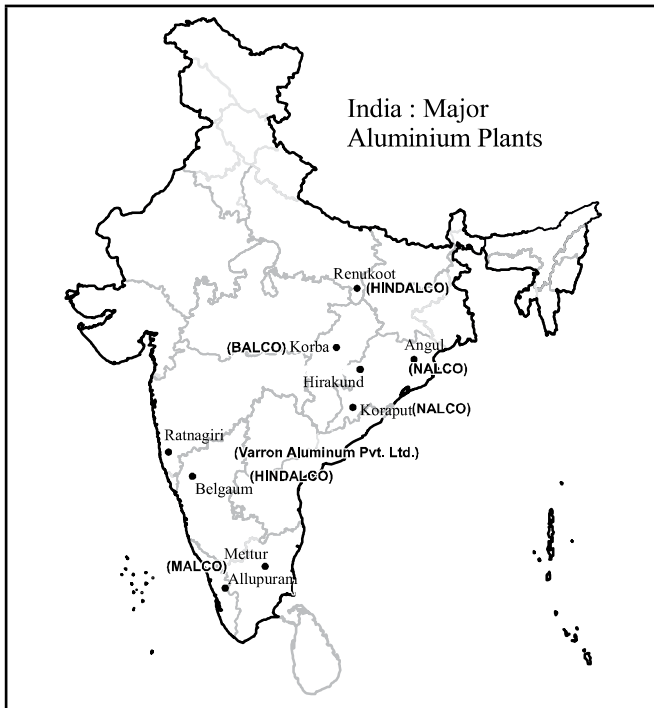

According to the data released by the World Steel Association in December, 2024, China is at the top in the production of crude steel globally, followed by India in second place.
