36. Given below are two statements, one is labeled as Assertion (A) and other as Reason (R) :

Assertion (A) : Ahmedabad is the largest centre of cotton textile industry in India.

Reason (R) : Ahmedabad is located in major cotton growing region of India, so it has no problem of raw materials.

Select the correct answer from the codes given below.

Codes :

- (a) Both (A) and (R) are true and (R) is the correct explanation of (A)
(b) Both (A) and (R) are true, but (R) is not the correct explanation of (A)
(c) (A) is true, but (R) is false
(d) (A) is false, but (R) is true

U.P. P.C.S. (Pre) 2020

Ans. (d)

Mumbai is the largest center of the Cotton textile industry in India. Ahmedabad is located in India's major cotton production area, it does not face any raw material problem. Hence, based on appropriate interpretation, it can be said that statement (A) is false, but reason (R) is correct.

37. Tamil Nadu is a leading producer of mill-made cotton yarn in the country. What could be the reason?

1. Black cotton soil is the predominant type of soil in the state.

2. Rich pool of skilled labor is available.

Which of the above is/are the correct reasons?

- (a) 1 only (b) 2 only
(c) Both 1 and 2 (d) Neither 1 nor 2

I.A.S. (Pre) 2010

Ans. (b)

Tamil Nadu is a leading producer of mill-made cotton yarn in the country. The presence of numerous spinning mills, a skilled labor force, and the availability of cheap hydroelectricity are the main factors for good production. Tamil Nadu is not a predominant area of black cotton soil. Hence, only statement 2 is correct.

38. Assertion (A) : Cotton textile industry is spread all over India though cotton is produced in only a few parts.

Reason (R) : Its raw material does not lose weight during manufacturing.

Which one of the following is the correct choice?

- (a) Assertion is correct and reason is also correct.
(b) Assertion is correct but reason is wrong.
(c) Assertion is wrong but reason is correct.
(d) Assertion and reason, both are wrong.

R.A.S./R.T.S. (Pre) 2013

Ans. (a)

In India, cotton is mainly produced in black soils. Some of the important centres such as Ahmedabad, Solapur, Nagpur, Coimbatore and Indore are located in areas of large scale cotton cultivation. Thus, cotton is produced in only a few parts of India. It is equally important to note that cotton is a pure raw material, in the sense that it does not lose its weight in the process of manufacturing and the slight loss in weight is more than compensated by the use of sizing materials. The cotton textile industry is spread all over India. Maharashtra, Gujarat, Tamil Nadu, Punjab and Madhya Pradesh etc. are prime centres of cotton textile production.
